LESSON 61
GRAMMAR ANALYSIS
ΓΡΑΜΜΑΤΙΚΗ

- 1 (a) The "second" declensions of Nouns. Masculine nouns in -ΟΣ. In KATHAREVOUSA all nouns are classified as belonging to one of three declensions, the first, second, and third. The second declension is by far the easiest one to master as it presents the fewest possible deviations from the pattern of the DEMOTIC. It includes all masculine and feminine nouns ending in -ΟΣ and all neuter nouns ending in -Ο(Ν).
- (b) Masculine nouns ending in -ΟΣ are declined the way they are declined in the DEMOTIC. The only thing to remember is that in the objective case of the singular, both the article and the noun, (or adjective) always retain their final -υ. Thus in KATHAREVOUSA you always say τόν φίλον, τόν χύριον, τόν στρατηγόν, instead of τό φίλο, τον χύριο, τό στρατηγό respectively. All the other cases are exactly the way you have learned them in the Demotic.
- (c) Another case, the Dative Case (the ancient case of the indirect object) is also used in KATHAREVOUSA. It is used nowadays primarily with the prepositions ΣΥΝ (together with) and ΕΝ (in, inside) and in some stock phrases. The Dative Case of the masculine article ο is τῷ in the singular and τοῖς in the plural. Thus, the dative case of the words φίλος, χύριος, στρατηγός are τῷ φίλῳ, τῷ χύριῳ and τῷ στρατηγῷ in the singular and τοῖς φίλοις, τοῖς χύριοις, τοῖς στρατηγοῖς in the plural. The declension of 3 typical

Pos.	τῶν βουνῶν	τῶν σχολείων	τῶν κτιρίων
Dat.	τοῖς βουνοῖς	τοῖς σχολείοις	τοῖς κτιρίοις

- (b) The objective case of all neuter nouns in the same as the nominative.

3 (a) The "first" declensions of nouns. Masculine nouns -ΗΣ. Masculine nouns ending in -ΗΣ or in -ΑΣ, and feminine nouns in -Α or -Η belong to what is the 1st declension of nouns. They share same common characteristics the most important of which is that in the possessive case of the plural they always shift the accent to the last syllable (and the accent is then a circumflex). Also, in the plural, all nouns of this declension, whether masculine or feminine, have the same endings. Grammatical gender is indicated by the article. There are no neuter nouns in this declension. The declension pattern of two typical masculine nouns in -ΗΣ is as follows:

Singular

			Endings
Nom.	ὁ διοικητής	ὁ συνταγματάρχης	ης
Pos.	τοῦ διοικητοῦ	τοῦ συνταγματάρχου	ου
Dat.	τῷ διοικητῷ	τῷ συνταγματάρχῃ	η

- (d) Adjectives and pronouns ending in -ΟΣ are declined like the corresponding nouns.
- 2 (a) Neuter Nouns in -ON. All DEMOTIC neuter nouns in -Ο end in -ΟΝ in KATHAREVOUSA. However, the neuter article ΤΟ never becomes ΤΟΝ. The dative case of neuter nouns in -ΟΝ is exactly the same as that of masculine nouns in -ΟΣ, both in the singular and in the plural. All the other cases are exactly the same as you have learned them in the DEMOTIC. The declension of 3 typical neuter nouns in -ΟΝ is as follows:

Singular

Nom.	τό βουνόν	τό σχολεῖον	τό κτίριον
Pos.	τοῦ βουνοῦ	τοῦ σχολεῖου	τοῦ κτίριου
Dat.	τῷ βουνῷ	τῷ σχολεῖῳ	τῷ κτίριῳ

Among the many masculine nouns in -HZ you know
are the following:

ο στρατιώτης	ο περιηγητής
ο ταγματάρχης	ο διτρατάρχης
ο μαθητής	ο γκασπιστής
ο χαθηγητής	ο επισκέπτης
ο γαστήρ	ο φοιτητής
ο επιβάτης	ο σπουδαστής

4

The KATHAREVOUSA form of the preposition ΣΕ
is ΕΙΣ. It means in, at, and to.

- 5 (a) Masculine nouns in -ΑΣ. As mentioned in #3a, masculine nouns ending in -ΑΣ or in -ΗΣ belong to the first declension of nouns. They have the same plural endings (see masculine nouns in -ΗΣ) and are always accented on the syllable before the last in the nominative, singular. The declension of typical nouns ο λοχίας, and ο τραυματίας (wounded person) follows:

Singular

			<u>Endings</u>
Nom.	ο λοχίας	ο τραυματίας	-ας
Pos.	τοῦ λοχίου	τοῦ τραυματίου	-ού

Obj.	τούς λοχίας	τούς τραυματίας	-ας
Voc.	λοχίαι	τραυματίαι	-αι

- (b) Masculine nouns ο ἐπιλοχίας (master sergeant), ο σμηνίας (Air Force sergeant) and ο τρημίας (teller, treasurer) are declined like ο λοχίας.

- 6 The feminine article in KATHAREVOUSA. The singular form of the feminine article is the same in KATHAREVOUSA as it is in the DEMOTIC except that in the objective case the final -N is always retained. In the plural it is not the same as in the DEMOTIC. In KATHAREVOUSA, the feminine article is declined as follows:

(b) The declension of typical nouns ή διαφορά (difference), ή ώρα and ή καθηγήτρια is given below:

Singular

Nom.	ή διαφορά	ώρα	καθηγήτρια
Pos.	τῆς διαφορᾶς	ώρας	καθηγητρίας

Obj.	τὴν διαφοραν	ώραν	καθηγητρίαν

(c) First declension feminine nouns in -A shift their accent one syllable toward the ending in the possessive and dative cases of the singular and in the objective case of the plural if they are stressed on the third from the last syllable in their basic case (see ή καθηγήτρια). They shift their accent all the way down to the last syllable in the possessive case of the plural as all first declension nouns do.

Feminine nouns belonging to the first declension end in -H or in -A. They are declined the same way as they are in the Demotic in the singular, with the final -N retained in the objective case. In the plural their endings correspond to those of the feminine article. The declension of typical nouns η̄ διαταγή (order), η̄ μάχη (battle), and of the proper noun η̄ Ανδρομάχη follows.

Singular

Nom.	η̄ διαταγή	η̄ μάχη	η̄ Ανδρομάχη
Pos.	τη̄ς διαταγῆς	τη̄ς μάχης	τη̄ς Ανδρομάχης

9 (a)

Verbs ΑΝΑΠΝΕΩ (to breath), ΠΝΕΩ (to blow) and ΠΛΕΩ (to float). These verbs have the same stems in both KATHAREVOUSA and in DEMOTIC. In KATHAREVOUSA they take the endings of the verb (KATHAREVOUSA version) for the corresponding tenses while in the two past tenses they always take the augment ε- even when it is not required to provide an extra syllable for the accent to move up.

The stems ΑΝΑΠΝΕ-, ΠΝΕ-, and ΠΛΕ- become ΑΝΑ-ΠΝΕΥΣ-, ΠΝΕΥΣ, and ΠΛΕΥΣ- in the simple tenses of the active voice. These verbs do not occur in the passive voice. The principal parts of ΑΝΑΠΝΕΩ are as follows:

ἀναπνέω, ἀνάπνεα, ἀνάπνευσα, (ΚΑΘ. ἀνέπνυε,
ανέπνευσα), θά(να) αναπνεύσω, ἔχω-είχα ανα-
πνεύσει -- ανάπνεε - αναπνέετε, ανάπνευσε -
αναπνεῦστε (ΚΑΘ. ανάπνευσον - αναπνεύσατε)

- (b) Since the verb ΑΝΑΠΝΕΩ is a very important verb, and is commonly used in everyday conversation, learn to conjugate it and to use it with its DEMOTIC endings.

- 10 (a) The preposition EK. This preposition, which changes into ΕΞ when the following word starts with a vowel, corresponds to the preposition ΑΠΟ (from) of the DEMOTIC. The noun or pronoun following it is in the possessive case. Examples:

<u>KATHAREVOUSA</u>	<u>DEMOTIC</u>
1. Τό άεροπλάνον ἀνεχώρησεν εξ Αθηνῶν.	1. Τό άεροπλάνο ἐφυγε ἀπ' τήν Αθήνα.
2. Τηλεγραφοῦν ἐκ Νέας Υόρκης	2. Τηλεγραφοῦν ἀπ' τή Νέα Υόρκη οτι ... οτι ...

- (b) Idiomatic expressions with the preposition EK (ΕΞ).

- | |

| 1. <u>Ἐκ μέρους τοῦ</u> , <u>τῆς</u> , <u>τῆς</u> , 1. In behalf of ... |
| 2. <u>Ἐξ ἀποστάσεως</u> , 2. From a distance... |
| 3. <u>Ἐκ πειρᾶς</u> , 3. From experience |
| 4. <u>Ἐξ αἰτίας τοῦ</u> , <u>τῆς</u> , <u>τῆς</u> , 4. Because of ... |
| 5. <u>Ἐξ ὄψεως</u> , 5. By sight |

LESSON 64
GRAMMAR ANALYSIS
ΓΡΑΜΜΑΤΙΚΗ

11 (a) Feminine nouns in -A whose stem ending is a consonant (other than -o). First declension feminine nouns ending in -A change their ending into -ΗΣ and -H in the possessive and dative cases of the singular respectively if their stem ending is any consonant other than -o. No such change occurs in the DEMOTIC. Examples:

<u>Katharevousa</u>	<u>Demotic</u>
1. Τά γράμματα τῆς ελληνικῆς γλώσσης είναι 24.	1. Τά γράμματα <u>τῆς</u> , <u>έλληνικῆς</u> <u>γλώσσας</u> είναι 24.
2. Ἡ μανία, <u>τῆς</u> θυέλλης, ητο τρομακτική.	2. Ἡ μανία <u>τῆς</u> θύελλας ηταν τρομακτική.

BUT

1. Τό κόστος <u>τῆς</u> γεφύρας, έφθασε τα 300 εκατομμύρια δολλαρίων.	1. Τό κόστος <u>τῆς</u> γέφυρας έφθασε τα 300 εκατομμύρια δολλάρια.
---	---

(b) Feminine nouns of this class accented on the 3rd from the last syllable shift their accent down one syllable (toward the ending) in the possessive and dative cases of the singular and in the objective case of the plural. In the possessive case of the plural, they shift their accent all the way down to the ending. The DEMOTIC has retained only this last characteristic. Otherwise, there is neither accent shift, nor vowel change, (in the possessive case of the singular) or the objective case of the plural.

- (c) The declension of two typical nouns of this class is as follows:

Singular

Nom.	ἡ τράπεζα	ἡ γλῶσσα
Poss.	τῆς τραπέζης	τῆς γλῶσσης
Dat.	τῇ τραπέζῃ	τῇ γλῶσσῃ
Obj.	τὴν τράπεζαν	τὴν γλῶσσαν
Voc.	(τράπεζα)	(γλῶσσα)

Plural

Nom.	αι τράπεζαι	αι γλῶσσαι
Poss.	τῶν τραπέζων	τῶν γλωσσῶν
Dat.	ταῖς τραπέζαις	ταῖς γλωσσαις
Obj.	τάς τραπέζας	τάς γλωσσας
Voc.	(τράπεζαι)	γλῶσσαι

- (d) The nouns ἡ αἴθουσα (hall), ἡ ἄμυνα (defense), ἡ βασίλισσα (queen), ἡ δίαιτα (diet), ἡ θαλασσα (sea, ocean), ἡ θύελλα (storm), are declined like ἡ τράπεζα. The nouns ἡ δίψα (thirst), ἡ δόξα (glory), ἡ νίττα (defeat), ἡ πείνα (hunger), ἡ ρίζα (root, stem), etc., are declined like ἡ γλῶσσα.

- (e) Feminine adjectives and participles ending in -A or in -H follow the same declension pattern as those of the corresponding feminine nouns. However, adjectives ending in -A and preceded by a vowel stem ending, do not shift their accent to the last syllable in the possessive and dative cases of the plural. Note the following examples:

Singular

Nom.	ἡ φραία θάλασσα	ἡ παρελθοῦσα ὥρα
Poss.	τῆς φραίας θαλάσσης	τῆς παρελθούσης ὥρας
Dat.	τῇ φραίᾳ θαλάσσῃ	τῇ παρελθούσῃ ὥρᾳ
Obj.	τὴν φραίαν θάλασσαν	τὴν παρελθοῦσαν ὥρα
Voc.	(φραία θάλασσα)	(παρελθοῦσα ὥρα)

* feminine form of τό παρελθόν, ό παρελθών (past, last, preceding)

Plural

Nom.	αἱ ὥραι	θάλασσαι	αἱ παρελθοῦσαι	ὥραι
Poss.	τῶν ὥραιῶν	θαλασσῶν	τῶν παρελθουσῶν	ὥρῶν
Dat.	ταῖς ὥραιαῖς	θαλάσσαις	ταῖς παρελθούσαις	ὥραις
Obj.	τὰς ὥραιάς	θαλάσσας	τὰς παρελθούσας	ὥρας
Voc.	(ὥραι)	(θάλασσαι)	(παρελθοῦσαι)	(ὥραι)

* * * *

NOTE: The feminine nouns ή νῆσος (island), η υπαίθρος (rural area), and η ψῆφος (vote, ballot) are declined exactly like the corresponding masculine nouns as explained in #124a. Gender is indicated by the feminine article. The KATHAREVOUSA variant of the feminine article is used when declining these nouns in the learned version of Modern Greek.

12. The preposition ΓΙΑ (for, in order to) of the DEMOTIC is ΔΙΑ in KATHAREVOUSA. It agrees with the objective case in the sense of for, in order to, about as its DEMOTIC counterpart does. It also agrees with the possessive case in KATHAREVOUSA meaning by, by means of, through.

13 (a) The Conjugation of Active Verbs. Verbs endings are generally different in KATHAREVOYSA than they are in the DEMOTIC. This is especially true in the continuous past (imperfect) of both active and passive verbs. The conjugation of typical active verb ΛΥΩ (to solve, to untie) is as follows:

Continuous Tenses

<u>Present</u>	<u>Imperfect</u>
1. λύ-ω	ζ-λυ-ον
2. λύ-εις	ζ-λυ-ες
3. λύ-ει	ζ-λυ-ε
1. λύ-ομεν	ζ-λύ-ομεν
2. λύ-ετε	ε-λύ-ετε
3. λύ-ουν (ουσιν)	ζ-λυ-ον

Cont. Future &
Cont. Inf./Subj.

1. θά(vá) λύ-ω	λυ-ε λύ-ετε
2. θά(vá) λύ-ης	
3. θά(vá) λύ-ή	
1. θά(vá) λύ-ωμεν	
2. θά(vá) λύ-ετε (ητε)	
3. θά(vá) λύ-ουν (ωσιν)	

Simple Tenses

<u>S. Past</u>	<u>S. Future & S. Infinitive/Subj.</u>	<u>Present Perf.</u>
1. ἤ-λυ-σα	θά(νά) λύ-σω	ἔχω λύσει
2. ἤ-λυ-σες	θά(νά) λύ-σης	
3. ἤ-λυ-σε	θά(νά) λύ-σῃ	<u>Past Perfect</u>
1. ἔ-λύ-σαμεν	θά(νά) λύ-σώμεν	εἶχον λύσει
2. ἔ-λύ-σατε	θά(νά) λύ-σητε	
3. ἔ-λυ-σαν	θά(νά) λύ-σουν (σωσιν)	<u>S. Imperative</u> λύσον - λύσατε

(b) Derivatives of ΛΥΩ such as ΑΝΑΛΥΩ (to analyze), ΑΠΟΛΥΩ (to dismiss, to discharge), ΔΙΑΛΥΩ (to dissolve), ΠΑΡΑΛΥΩ (to paralyze), etc. are more frequently used than the basic verb ΛΥΩ. In the two past tenses they take the augment in all persons, whether necessary for the accent to move up or not. As usual, the augment is placed before the basic verb and not before the prefix. The verb ΑΠΟΛΥΩ is conjugated as follows:

Continuous Tenses

<u>Present</u>	<u>Imperfect</u>	<u>Cont. Fut.&Cont. Inf./Subj.</u>
1. ἀπολύω	ἀπέλυσον	θά(νά) ἀπολύω
2. ἀπολύεις	ἀπέλυσες	θά(νά) ἀπολύγεις
3. απολύει	ἀπέλυε	θά(νά) απολύγει
1. ἀπολύομεν	ἀπελύομεν	θά(νά) ἀπολύωμεν
2. ἀπολύετε	ἀπελύετε	θά(νά) ἀπολύγετε
3. απολύουν - (ουσιν)	ἀπέλυον	θά(νά) απολύουν - (ωσιν)

Cont. Imperative

ἀπόλυε - ἀπολύετε

Simple Tenses

<u>S. Past</u>	<u>S. Future & S. Infinitive/Subj.</u>	<u>Present Perf.</u>
1. ἀπέλυσα	θά(νά) ἀπολύσω	ἔχω - ἔχεις ἀπολύσεις
2. ἀπέλυσες	θά(νά) ἀπολύσῃς	
3. ἀπέλυσε	θά(νά) ἀπολύσῃ	
1. ἀπελύσαμεν	θά(νά) ἀπολύσωμεν	<u>Past Perfect</u>
2. ἀπελύσατε	θά(νά) ἀπολύσητε	
3. ἀπέλυσαν	θά(νά) ἀπολύσουν - (σωσιν)	ἔχον - εἶχες ἀπολύσεις

Simple Imperative

ἀπόλυσον - ἀπολύσατε

- (c) The conjugation of ΛΥΩ can serve as a model for the conjugation of all regular active verbs such as ΚΡΟΥΩ (to strike), ΑΠΟΚΡΟΥΩ (to repulse) whose stem ends in a vowel (including those ending in vowel combinations). Verbs in -ΙΖΩ (ξυρίζω) and in -ΩΝΩ (πληρώνω) change their stem endings in KATHAREVOUSA exactly the same way as they do in the DEMOTIC. In general, this is true of nearly all stem ending changes. (Exceptions to the rule will be taken up as they come). Examples:

<u>Present</u>	<u>Simple Past</u>	<u>Simple Future</u>
χρούω	ἔχρουσα	θά χρούσω
ἀποχρούω	ἔπεχρουσα	θά ἀποχρούσω
θεραπεύω	ἔθεράπευσα	θά θεραπεύσω
χορεύω	ἔχόρευσα	θά χορεύσω
δανείζω	ἔδάνεισα	θά δανείσω
πληρώνω	ἔπληρωσα	θά πληρώσω
διδάσκω	ἔδίδαξα	θά διδάξω
τρέχω	ἔτρεξα	θά τρέξω
παιζω	ἔπαιξα	θά παιξω
γράφω	ἔγραψα	θά γράψω

Note: The stem endings -AY and -EY never change into -ΑΥ and -ΕΥ in the simple tenses in KATHAREVOUSA. They always add the letter -Σ to the back stem to form the stem of the simple tenses.

- 14 (a) The preposition ΥΠΟ (by) corresponds to the preposition ΑΠΟ of the DEMOTIC in referring to the agent of a passive verb. In that case the preposition ΥΠΟ agrees with a noun or pronoun in the possessive case. Examples:

<u>KATHAREVOUSA</u>	<u>DEMOTIC</u>
1. Ἡ Βουλή διελύθη ὑπό τοῦ πρωθυπουρ- γοῦ.	1. Ἡ Βουλή <u>διαλύθηκε</u> , <u>ἀπ' τόν πρωθυπουργό.</u>
2. Οἱ λογαριασμοί θά- πληρωθοῦν <u>ὑπό τοῦ</u> <u>ταμίου.</u>	2. Οἱ λογαριασμοί θά- πληρωθοῦν <u>απ' τόν</u> <u>ταμία.</u>

- (b) The preposition ΥΠΟ, agreeing with the objective case, means under. In the DEMOTIC the compound preposition KATΩ ΑΠΟ is used to denote the same thing. Examples:

1. Τό <u>ὑποβρύχιον</u> πλέει <u>ὑπό τὴν</u> <u>θάλασσαν.</u>	1. Τό <u>ὑποβρύχιο</u> πλέει κάτω από τή <u>θάλασσα.</u>
2. <u>Ὑπάρχει πολύ</u> <u>πετρελαιον</u> <u>ὑπό τὴν γῆν τῆς</u> <u>Καλιφορνίας.</u>	2. <u>Ὑπάρχει πολύ πετρέ-</u> <u>λαιο</u> κάτω από τή <u>γῆ</u> <u>τῆς Καλιφορνίας.</u>

LESSON 66

ΓΡΑΜΜΑΤΙΚΗ

- 15 (a) The prepositions EN and ΣYN. The ancient preposition EN (in, inside) is strictly a KATHAREVOYSA preposition. It is not used in the DEMOTIC. The preposition ΣYN (with, together with) is another ancient preposition but it is still in current use in mathematics to denote the sign plus (+). Both these prepositions agree with the dative case except when ΣYN is used as the sign plus (+).
- (b) Prepositions EN and ΣYN are very often attached to Greek words as prefixes.
- 16 (a) Changes observed in the various tenses of verbs having prefixes EK, EN or ΣYN. Since it is axiomatic that in the past tenses the augment is placed before the basic verb and not before the prefix, some very interesting changes occur in verbs preceded by prefixes. Thus, verbs having the preposition EK as a prefix change their prefix into ΕΞ in the two past tenses because this preposition always becomes ΕΞ when followed by a vowel.
Examples:

<u>Present</u>	<u>Imperfect</u>	<u>Simple Past</u>
έχ + διώκω	έξ + έδιώκον	έξ + έδιωξα
έχ + λέγω	έξ + έλεγον	έξ + έλεξα
έχ + φραζω	έξ + έφραζον	έξ + έφρασα

- (b) Preposition έν and σύν, both ending in ν, suffer many changes due to their proximity to various consonants. In general, the letter ν becomes μ when preceding a labial consonant (χ, β, φ, μ, ψ). It becomes γ when preceding a velar consonant κ, γ, χ. It becomes λ

when preceding a λ. The preposition συν in addition, changes the ν into ρ when preceding a ρ and changes it into σ when preceding letter σ. The following table should make this clear:

	before χ, γ, Χ it be- comes	before π, β, φ, μ, ψ it becomes	before λ it becomes	before ζ	before ρ & σ
ἐν	έγ	έμ	έλ	no change	no change
συν	συγ	συμ	συλ	it disappears	συρ, συσ

1

ἐν+γράφω - ἐγγράφω
 ἐν+κρίνω - εγχρίνω
 εν+χειρίζω - ἐγχειρίζω

συν+γράφω - συγγράφω
 συν+κρίνω - συνκρίνω
 συν+χαίρω - συγχαίρω

2

ἐν+βάλλω - ἐμβάλλω
 ἐν+μένω - εμμένω
 εν+πίπτω - εμπίπτω

συν+φέρει - συμφέρει
 συν+μαχῶ - συμμαχῶ
 συν+ψηφίζω - συμψηφίζω

3

ἐν+λείπω - ἐλλείπω
 συν+λέγω - συλλέγω

4

συν+ζητῶ - συζητῶ

5

συν+ρέω - συρρέω
 συν+σωρεύω - συσσωρεύω

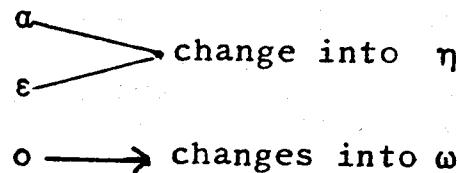

NOTE: The imperfect tense of contracted verbs is conjugated in an entirely different way in KATHAREVOYSA than it is in the DEMOTIC. Consequently, all contracted verbs appearing in these lessons will be conjugated in the Simple Past tense only until such time as the conjugation pattern of the imperfect tense of contracted verbs is given.

- (c) Becoming familiar with the changes in the shape and sound of verbs because of the phonetic changes (assimilation) the proximity of certain consonants cause upon one another is most important because verbs are listed in the dictionary in the present tense and it will be impossible to look them up and find their meaning if encountered in the past tenses. Examples:

<u>Verbs appearing like this in the newspapers</u>	<u>—</u>	<u>should be found under:</u>
έξέφρασα		έχφράζω
ενέβαλλα		εμβάλλω
διέθεσα		διαθέτω
υπέβαλα		υποβάλλω
συνέκρινα		συγκρίνω
συνέχαιρα		συγχαίρω
συνεπάθησα		συμπαθῶ
συνεφώνησα		συμφωνῶ
συνεμάχησα		συμμαχῶ
συνέλαβα		συλλαμβάνω
προσεκάλεσα		προσκαλῶ
διέφερα		διαφέρω

LESSON 67
GRAMMAR ANALYSIS
ΓΡΑΜΜΑΤΙΚΗ

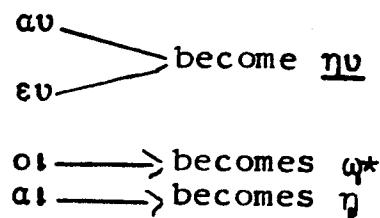

17 (a) Augments taken by verbs starting with a vowel.
 As it has already been explained, all verbs in Katharevousa take an augment in the two past tenses. When a verb starts with a consonant, the augment is ε. When a verb starts with a vowel, however, the initial vowel itself changes (and no extra syllable is added). Vowel changes follow the following rules:

Examples:

Present	Imperfect	S. Past
ἀρχίζω	ῆρχιζον	ῆρχισα
ἔλπιζω	ῆλπιζον	ῆλπισα
οπλίζω	ωπλιζον	ωπλισα

(b) Vowel combinations αυ, ευ, and οι, αι, change as follows:

Examples:

Present	Imperfect	S. Past
αὐξάνω	ηὔξανον	ηὔξησα
εὐχολύνω	ηὔχολγον	ηὔχολγα
αἰχμαλωτίζω	ηὔχμαλωτιζον	ηὔχμαλωτισα

* οίκοδομῶ - ὄκοδόμησα (Not many verbs start with this combination.)

- (c) Vowels i, η, υ, ω and vowel combination ει do not change. Examples:

<u>Present</u>	<u>Imperfect</u>	<u>Simple Past</u>
ἱδρύω	ἱδρυον	ἱδρυσα
ησύχαζω	ησύχαζον	ησύχασα
ὑβριζω	ὑβριζον	ὑβρισα
ωριμαζω	ωριμαζον	ωριμασα
ειρηνεύω	ειρηνευον	ειρηνευσα

- (d) It is very important to learn these changes because very frequently, in trying to look up a verb in the dictionary, it would be impossible to find it if the form of its present tense couldn't be figured out properly. Examples:

ῳριζον	will be found under	ῳρίζω
ἥλεγχον	will be found under	ἥλεγχω
ηὐχαριστησα	will be found under	εὐχαριστῶ

- (e) When a verb in the past tense is found starting with an η it is advisable to be looked first under η. If not successful, look it up under α or under ε for the reasons explained in 17a.

LESSON 68
GRAMMAR ANALYSIS
ΓΡΑΜΜΑΤΙΚΗ

- 18 (a) Correct position of the augment in verbs starting with a vowel when preceded by a prefix.

The basic rule of placing the augment of verbs before the basic verb and not before the prefix applies also when a verb starts with a vowel. The vowel change occurs before the basic verb as the following examples will indicate.

$$\begin{array}{ll} ἔξ. + ὄρμῶ & = ἔξορμῶ \\ εξ + ὄρμησα & = εξώρμησα \end{array}$$

$$\begin{array}{ll} ἀπό + ἔρχομαι & = ἀπέρχομαι \\ από + ἡλθα & = απῆλθα \end{array}$$

$$\begin{array}{ll} παρά + ἀκολουθῶ & = παρακολουθῶ \\ παρά + ἡκολούθησα & = παρηκολούθησα \end{array}$$

$$\begin{array}{ll} διά + εὔκολύνω & = διεύκολύνω \\ διά + ηύκολυνα & = διηύκολυνα \end{array}$$

- (b) When a prefix ends in a vowel, and the following word starts with one, the initial vowel of the basic word usually knocks off the final vowel of the prefix. The prepositions ΠΕΡΙ (about, around) and ΠΡΟ (before, in front of) are the only exception to the rule. Examples:

$$\begin{array}{ll} περί + ἔχω & = περιέχω \\ περί + είχον & = περιεῖχον \end{array}$$

$$\begin{array}{ll} πρό + ὑπηρετῶ & = προὑπηρετῶ \\ προ + υπηρέτησα & = προὑπηρέτησα \end{array}$$

- (c) Phonetic changes resulting from prefixes preceding formerly aspirated words. All words starting with a vowel marked by a rough (‘) breathing sign used to be aspirated in Ancient Greek. This fact produces some interesting

phenomena when prefixes ending in τ or π (after the vowel has been knocked off) are attached to the basic word. The following table should make this clear.

Prefix ending in π after vowel has been knocked off	Changes π into ϕ	When follow- ing word starts with a vowel mark- ed by a rough (') breathing sign.	Examples
$\alpha\pi\circ$ \longrightarrow $\alpha\pi$ $\epsilon\pi\circ$ \longrightarrow $\epsilon\pi$ $\upsilon\pi\circ$ \longrightarrow $\upsilon\pi$	$\alpha\phi$ $\epsilon\phi$ $\upsilon\phi$	$\alpha\iota\rho\ddot{\omega}$ $\epsilon\mu\acute{\rho}\zeta\omega$ $\iota\sigma\tau\alpha\mu\alpha\iota$	$\alpha\phi\alpha\iota\rho\ddot{\omega}$ $\epsilon\phi\mu\acute{\rho}\zeta\omega$ $\upsilon\phi\iota\sigma\tau\alpha\mu\alpha\iota$
Prefix ending in τ after vowel has been knocked off	Changes τ into θ	When follow- ing word starts with a vowel mark- ed by a rough (') breathing sign.	Examples
$\alpha\tau\acute{\iota}$ \longrightarrow $\alpha\tau$ $\kappa\tau\acute{a}$ \longrightarrow $\kappa\tau$ $\mu\tau\acute{a}$ \longrightarrow $\mu\tau$	$\alpha\theta$ $\kappa\theta$ $\mu\theta$	$\iota\sigma\tau\alpha\mu\alpha\iota$ $\alpha\iota\rho\ddot{\omega}$ $\circ\mu\iota\sigma\tau\alpha\mu\alpha\iota$	$\alpha\theta\iota\sigma\tau\alpha\mu\alpha\iota$ $\kappa\theta\alpha\iota\rho\ddot{\omega}$ $\mu\theta\mu\iota\sigma\tau\alpha\mu\alpha\iota$

- (d) It will be easy to understand how these phonetic changes came about if one realizes that a rough breathing sign (') indicated the same sound as an aspirated /h/ (history, hymn) does. Obviously, the proximity of p + h creates a ph sound which is pronounced /f/ while the proximity of t + h creates a th sound which is pronounced /θ/ both in English and in Greek today.

- 19 (a) The prepositions ΑΠΟ and ΕΠΙ. The preposition ΑΠΟ means from, in the DEMOTIC. It means since or for in KATHAREVOYSA and requires a possessive case agreement. Examples:

<u>Greek</u>	<u>English</u>
1. Μετροῦμεν τήν χρονολογίαν από τῆς γεννήσεως τοῦ Χριστοῦ.	1. We are counting the date <u>since</u> the birth of Christ.
2. Γνωρίζω τὸν κύριον Από πολλῶν ετῶν.	2. I've known Mr. A <u>for</u> many years.

- (b) The preposition ΕΠΙ, meaning on, agrees with the possessive case. (In the DEMOTIC the preposition ΣΕ, or the phrase ΕΠΑΝΩ ΣΕ are used in that sense). The preposition ΕΠΙ meaning by (x), the multiplication sign, agrees with the objective case. In this respect it is in common usage in both KATHAREVOYSA and in the DEMOTIC. The same preposition, also agreeing with the objective case, means for. Examples:

- | | |
|---|---|
| 1. Τό πλοῖον πλέει. | 1. The boat is floating <u>on</u> the sea. |
| 2. Διά γά εὑρωμεν τὴν επιφάνειαν ἐνός τετραπλεύρου πολλαπλασιάζομεν τό μῆκος επι τό πλάτος. | 2. To find the area (surface) of a rectangle we multiply the length by the width. |
| 3. Ο φίλος μου είναι εἰς τό γοσοκομεῖον επι πολύν καιρον. | 3. My friend has been in the hospital <u>for</u> a long time. |

20 (a) The prepositions ANTI, KATA and META. The preposition ANTI, agreeing with the possessive case, means instead of, in the place of. Examples:

1. Ο υποδιοικητής 1. The executive signed
υπέγραψε τήν the letter in the place
επιστολήν αντί of the commandant.
τοῦ διοικητοῦ.

(b) The preposition KATA, agreeing with the possessive case, means against, as it does in the DEMOTIC. Agreeing with the objective case, it means according to, during. Examples:

- | | |
|---|---|
| 1. Κατά τήν Γρα-
φην, πρέπει νά
ἀγαπῶμεν τούς
εχθρούς μας. | 1. According to the Scrip-
tures, we should love
our enemies. |
| 2. "Ημην μικρός
κατά τον πό-
λεμον. | 2. I was small <u>during</u> the
war. |

(c) The preposition META, agreeing with the objective case, means after as it does in the DEMOTIC. Agreeing with the possessive case, it means with, together with. Examples:

- | | |
|--|---|
| 1. Εσπούδασα εἰς
τήν Εύρωπην με-
τα τόν πόλεμον. | 1. I studied in Europe
<u>after</u> the war. |
| 2. Έπεσκέφθη τήν
πόλιν μας ὁ
πρωθυπουργός
μετά τοῦ βου-
λευτοῦ τῆς περι-
φερείας μας. | 2. There visited our city
the prime minister <u>with</u>
the congressman of <u>our</u>
district. |

LESSON 69
GRAMMAR ANALYSIS
ΓΡΑΜΜΑΤΙΚΗ

21 (a) The conjugation of standard passive verbs.
 The passive voice in KATHAREVOUSA presents more deviations from the DEMOTIC than the active voice does. Both past tenses take an augment (the letter *ε* or a vowel change, exactly the way the active voice does) and undergo the same kind of changes when preceded by prefixes. The conjugation of standard verb ΛΥΟΜΑΙ (to be solved, to be untied) is given below.

<u>Continuous Tenses</u>		<u>Cont. Future & Cont. Inf./Subj.</u>
<u>Present</u>	<u>Imperfect</u>	
1. λύομαι	έλυόμην	θά(νά) λύωμαι
2. λύεσαι	έλύεσσο	θά(νά) λύησαι
3. λύεται	ελύετο	θά(νά) λύηται
1. λυόμεθα	έλυόμεθα	θά(νά) λυώμεθα
2. λύεσθε	έλυεσθε	θά(νά) λύησθε
3. λύονται	ελύοντο	θά(νά) λύωνται

<u>Continuous Imperative</u>		<u>Participle</u>
λύου	λύεσθε	(to be given at a later date)

<u>Simple Tenses</u>		
<u>Simple Past</u>	<u>Simple Fut. & S. Inf./ Subj.</u>	
1. έλύθην	θά(νά) λυθώ	
2. έλύθης	θά(νά) λυθῆς	
3. έλύθη	θά(νά) λυθῆ	
1. έλύθημεν	θά(νά) λυθῶμεν	
2. έλύθητε	θά(νά) λυθῆτε	
3. έλύθησαν	θά(νά) λυθοῦσιν (λυθῶσιν)	

Present & Past Perf.Simple Imperative

ἔχω - εἶχον λυθῆ

λύσου - λυθῆτε

Participles
(to be given at a later date)

- (b) The principal parts of verb ΑΠΟΛΥΟΜΑΙ (to be dismissed (to be discharged, to be fired) are as follows:

ἀπολυόμαι, ἀπελυόμην, ἀπελύθην, θά(γά) ἀπολυθῶ
ἔχω - εἶχον απολυθῆ, ἀπολύον - ἀπολύεσθε, ἀπο-
λυσου - απολυθῆτε

- (c) The verbs ΑΝΑΛΥΩ - ΑΝΑΛΥΟΜΑΙ (to analyze, to be analyzed), ΔΙΑΛΥΩ - ΔΙΑΛΥΟΜΑΙ (to dissolve, to be dissolved), ΕΠΙΛΥΩ - ΕΠΙΛΥΟΜΑΙ (to solve, to be solved), ΚΑΤΑΛΥΩ - ΚΑΤΑΛΥΟΜΑΙ (to abolish, to cause the dissolution of), and ΠΑΡΑΛΥΩ - ΠΑΡΑΛΥΟΜΑΙ (to paralyze, to be paralyzed), are conjugated like the verb ΑΠΟΛΥΩ - ΑΠΟΛΥΟΜΑΙ.

- 22 (a) Unless otherwise stated, stem changes of most regular verbs tend to be the same in KATHAREVOYSA as they are in the DEMOTIC. Examples:

πληρώνω - πληρώνομαι -- ἐπλήρωσα - ἐπληρώθην
ὄνομάζω - ὄνομάζομαι -- ὄνομαζα - ὄνομαζθην
ακούω - ακούομαι -- ἡκουσα - ἡκούσθην
διδάσκω - διδάσκομαι -- ἐδίδαξα - ἐδιδάχθην
ανακαλύπτω - ανακαλύπτομαι -- ἀνεκάλυψα -
ανεκαλύφθην
συμβουλεύω - συμβουλεύομαι -- συνεβούλευσα -
συνεβούλεύθην
διευθύνω - διευθύνομαι -- διηγέρθυνα - διηγέρθην

- (b) In KATHAREVOUSA the variant -ΣΘ, -ΧΘ, -ΦΘ, -ΕΥΘ of the stem endings of simple tenses are used instead of the corresponding variants -ΣΤ, ΧΤ, -ΦΤ, ΕΥΤ respectively, of the DEMOTIC. (See above examples).

LESSON 70
GRAMMAR ANALYSIS
ΓΡΑΜΜΑΤΙΚΗ

- 23 The correct place of the augment for verbs preceded by two or more prefixes. The augment is always placed before the basic verb, irrespective of whether it is preceded by one, two, or more prefixes. Examples:

βάλλω	ἔβαλλον	ἔβαλα
παραβάλλω	παρέβαλλον	παρέβαλα
ἀντιπαραβάλλω	ἀντιπαρέβαλλον	ἀντιπαρέβαλα
όπλίζω	ώπλιζον	ώπλισα
έξοπλίζω	έξώπλιζον	έξώπλισα
έπανεξοπλίζω	έπανεξώπλιζον	έπανεξώπλισα
άσφαλίζω	ήσφαλιζον	ήσφαλισα
έξασφαλίζω	έξησφαλιζον	έξησφαλισα
προεξασφαλίζω	προεξησφαλίζον	προεξησφαλισα
λείπω	ἔλειπον	ἔλειψα
καταλείπω	κατέλειπον	κατέλειψα
έγκαταλείπω	έγκατέλειπον	έγκατέλειψα

- 24 (a) Adjectives in -ος, -η, -ον and in -ος, -α, -ον.
Adjectives ending in -ος form their feminine in -η if the stem of the adjective ends in a consonant other than ρ. They form their feminine in -α if the stem of the adjective ends in a vowel or in a ρ. Examples:

χαλός	χαλῆ	χαλόν
ἀγαπητός	ἀγαπητῆ	ἀγαπητόν
γέος	γέα	γέον
ωραῖος	ωραῖς	ωραῖον
μικρός	μικρά	μικρόν
καθαρός	καθαρά	καθαρόν

- (b) Adjectives stressed on the third from the last syllable always shift their accent one syllable down in the feminine. The neuter normally has the stress on the same syllable as the masculine. Examples:

πλούσιος	πλουσία	πλούσιον
ρέβαιος	ρεβαία	ρέβαιον
δεύτερος	δευτέρα	δεύτερον
ἔβδομος	ἔβδόμη	ἔβδομον
τέταρτος	τετάρτη	τέταρτον
ἕτοιμος	ἕτοιμη	ἕτοιμον

- 25 (a) The comparative and superlative degree of adjectives ending in -ος, -η, -ον and in -ος, -α, -ον. The comparative degree of these adjectives is formed by adding the endings -ότερος, -στέρα, -ότερον or -ώτερος, -ώτέρα, -ώτερον to the stem of the adjective. As in the DEMOTIC, the ending -ότερος becomes -ώτερος when the stem of the adjective ends in a "short" vowel. Examples:

νέος - νεώτερος	ώραιος - ωραιότερος
νέα - νεωτέρα	ώραια - ωραιοτέρα
νέον - νεώτερον	ώραιον - ωραιότερον

- (b) The superlative degree of adjectives belonging to the above class is formed in KATHAREVOUSA by the addition of the endings -ότατος, -στάτη, -ότατον or -ώτατος, -ώτάτη, -ώτατον, in accordance with the principles stated above. Examples:

νέος - νεώτατος	ώραιος - ωραιότατος
νέα - νεωτάτη	ώραια - ωραιοτάτη
νέον - νεώτατον	ώραιον - ωραιότατον

- (c) In KATHAREVOYSA, as in the DEMOTIC, the comparative degree of the adjective is used when we compare two items. Unlike the DEMOTIC, the preposition ΑΠΟ (corresponding to the English "than") is not used in KATHAREVOYSA. Instead, the noun used as the basis of the comparison takes the possessive case. Examples:

<u>Demotic</u>	<u>Katharevousa</u>
1. Ο Παῦλος εἶ- γας γεώτερος απ' τὸν Πέτρο.	1. Ο Παῦλος εἶναι νεώτε- ρος τοῦ Πέτρου.
2. Ή Μαρία εἶναι ώραιότερη απ' τὴν Ελένη.	2. Η Μαρία εἶναι ὡραιοτέ- ρα τῆς Ελένης.
3. Τό βιβλίο μου εἶναι καθαρό- τερο απ' τό δι- κό σου.	3. Τό ριβλίον μου εἶναι καθαρότερον τοῦ ιδικοῦ σου.

- (d) The superlative degree follows the same principle. The adjective takes the ending -ΟΤΑΤΟΣ, -ΩΤΑΤΗ, ΟΤΑΤΟΝ (or its variant -ΩΤΑΤΟΣ, etc.) and the noun or phrase standing as the basis for the comparison is put in the possessive case of the plural. Examples:

<u>Demotic</u>	<u>Katharevousa</u>
1. Ο Παῦλος εἶ- ναι ο νεωτερος γιός τοῦ χυρί- ου Ζήση.	1. Ο Παῦλος εἶναι ὁ νεώ- τατος τῶν υἱῶν τοῦ χυ- ρίου Ζήση.

GRAMMAR ANALYSIS

ΓΡΑΜΜΑΤΙΚΗ

- 26 (a) Adjectives having the same endings in the masculine and in the feminine (Adjectives in -ος, -ος, -ον). Certain adjectives ending in -ος form their feminine also in -ος. The neuter takes the regular ending -ον. All adjectives in -ος consisting of a prefix and the basic adjective belong in this class (in KATHAREVOUSA.) Feminine adjective in -ος are declined exactly like the corresponding feminine nouns in -ος. The gender is indicated by the article. Examples:

ὁ ἐπίσημος	ἡ ἐπίσημος	τό ἐπίσημον
οἱ ἔμπειρος	ἡ ἔμπειρος	τό ἔμπειρον
οἱ επιχίνδυνος	ἡ επιχίνδυνος	τό επιχίνδυνον
οἱ μονότοτος	ἡ μονότονος	τό μονότονον

- (b) The following simple adjectives (not preceded by a prefix) are among those forming their feminine in -ος.

βάρβαρος	βάρβαρος	βάρβαρον - barbaric
βόρειος	βόρειος	βόρειον
νότιος	νότιος	νότιον
ήρεμος	ήρεμος	ήρεμον - calm
φρίμος	φρίμος	φρίμον - ripe
ωφέλιμος	ωφέλιμος	ωφέλιμον - beneficial

- 27 (a) Adjectives in -ής, -ής, -ές. These adjectives follow a declension pattern all their own. Some have changed in the DEMOTIC taking the endings -μένος, -μένη, -μένο. Others are used the traditional way in both DEMOTIC and KATHAREVOUSA. The adjective ΔΙΕΘΝΗΣ, -ΗΣ, -ΗΣ (international), whose declension pattern

will serve as our model, is an example in point.

Singular

	Masculine & <u>Feminine</u>	End- ings	<u>Neuter</u>	End- ings
Nom.	ό διεθνής	-ής	τό διεθνές	-ές
Pos.	τοῦ τῆς διεθνοῦς	-οῦς	τοῦ διεθνοῦς	-οῦς
Dat.	τῷ τῇ διεθνεῖ	-εῖ	τῷ διεθνεῖ	
obj.	τόν τήν διεθνῆ	-ῆ	τό διεθνές	-ές
Voc.	(διεθνές)		(διεθνές)	

Plural

Nom.	οἱ αἱ διεθνεῖς	-εῖς	τά διεθνῆ	-ῆ

Dat.	τοῖς ταῖς διεθνέσι	-έσι	τοῖς διεθνέσι	
Obj.	τούς τάς διεθνεῖς	-εῖς	τά διεθνῆ	-ῆ
Voc.	διεθνεῖς	-εῖς	διεθνῆ	

- (b) The following high-frequency adjectives are among those declined like the adjective ΔΙΕΘΝΗΣ:

ἀκριβῆς, -ής, -ές	precise, accurate
ἀληθῆς, -ής, -ές	true, genuine
ἀσθενῆς, -ής, -ές	sick, patient (used as a noun)
ἀσφαλῆς, -ής, -ές	secure, safe, sure
ἀτυχῆς, -ής, -ές	unfortunate
δυστυχῆς, -ής, -ές	unhappy
γίλικρινῆς, -ής, -ές	frank

εὐτυχῆς, -ής, -ές	happy, blissful
ὅνεχῆς, -ής, -ές	continuous
ὑγιῆς, -ής, -ές	healthy
ψευδῆς, -ής, -ές	false, untrue

- (c) All adjectives in -ώδης, -ώδης, -ώδες are declined the same way. The stress remains on the syllable -ώ throughout with the exception of the possessive case of the plural where the accent shifts

down to the last syllable. Examples:

- δηλητηριώδης (poisonous) - τῶν δηλητηριώδων
- δασώδης (wooded) - τῶν δασωδῶν
- ελώδης (malarial) - τῶν ελωδῶν
- εύώδης (fragrant) - τῶν εύωδῶν
- μυστηριώδης (mysterious) - τῶν μυστηριώδῶν
- ογκώδης (bulky, massive) - τῶν ογκωδῶν

(d) Adjectives ending in -ΗΣ, -ΗΣ, -ΕΣ form their comparative and superlative degrees by adding the endings -ΕΣΤΕΡΟΣ, -ΕΣΤΕΡΑ, -ΕΣΤΕΡΟΝ and -ΕΣΤΑΤΟΣ, -ΕΣΤΑΤΗ, -ΕΣΤΑΤΟΝ respectively to the stem of the adjective. Examples:

ἄκριβής, ὁ	-	ἄκριβέστερος	-	ἄκριβέστατος
ἄκριβής, ἡ	-	ἄκριβεστέρα	-	ἄκριβεστάτη
ἄκριβες, τό	-	ἄκριβέστερον	-	ἄκριβεστατον
δυστυχής, ὁ	-	δυστυχέστερος	-	δυστυχέστατος
δυστυχής, ἡ	-	δυστυχεστέρα	-	δυστυχεστάτη
δυστυχές, τό	-	δυστυχέστερον	-	δυστυχέστατον
ἀσφαλής, ὁ	-	ἀσφαλέστερος	-	ἀσφαλέστατος
ἀσφαλής, ἡ	-	ἀσφαλεστέρα	-	ἀσφαλεστάτη
ἀσφαλές, τό	-	ἀσφαλέστερον	-	ἀσφαλέστατον

LESSON 72
GRAMMAR ANALYSIS
ΓΡΑΜΜΑΤΙΚΗ

23 (a) Adjectives in -ΩΝ, -ΩΝ, -ΟΝ. Adjectives belonging to this class also have the same endings in the masculine and in the feminine, with the article alone indicating the gender. The declension of model adjective ΕΙΔΗΜΩΝ, -ΩΝ, -ΟΝ (expert, specialist) is as follows:

Singular

	Masculine & <u>Feminine</u>	End- <u>ings</u>	<u>Neuter</u>	End- <u>ings</u>
Nom.	ό	ή	εἰδῆμων	-ων
Pos.	τοῦ	τῆς	εἰδῆμονος	-ονος
Dat.	τῷ	τῇ	εἰδῆμονι	-ονι
Obj.	τόν	τὴν	εἰδῆμονα	-ονα
Voc.			εἰδῆμον	-ον

Plural

Nom.	οἱ	αι	εἰδῆμονες	-ονες	τά εἰδῆμονα -ονα
Pos.	τῶν	τῶν	εἰδῆμονων	-όνων	τῶν εἰδῆμονων-ονων
Dat.	τοῖς	ταῖς	εἰδῆμοσι	-οσι	τοῖς εἰδῆμοσι -οσι
Obj.	τούς	τάς	εἰδῆμονας	-ονας	τα εἰδῆμονα -ονα
Voc.			εἰδῆμονες	-ονες	εἰδῆμονα

(b) The adjectives ἀγνώμων (ungrateful), ἔθνικόφρων (nationalist, loyal to the government, ευγνώμων (grateful), εὐδαίμων (happy), ἰσχυρογνωμων (stubborn), νοήμων (intelligent), πασάφρων (insane), etc. are declined like the adjective εἰδῆμων, -ων, -ον.

(c) Many nouns are declined like the adjective ο εἰδῆμων. Among those most commonly encountered are:

ο γείτων	neighbor
ο επιστήμων	scientist, scholar

ο χανών	rule, standard
ο κυκλών	cyclone
ο Μακεδών	Macedonian
η χιών	snow

- (d) Some nouns in -ών are declined the same way as the above nouns with the difference that the -ώ of the ending -ών does not change into -ο in the cases where an extra syllabe is added. Example.

	<u>Singular</u>	<u>Plural</u>
Nom.	ο αἰών	οι αἰώνες
Poss.	τοῦ αἰώνος	τῶν αἰώνων
Dat.	τῷ αἰώνι	τοῖς αἰώνι
Obj.	τόν αἰώνα	τούς αἰώνας
Voc.	αἰών	αἰώνες

- (e) Nouns ο ἄγών, ο στρατών, ο χειμών, etc. are declined like ο αἰών.

- (f) In the DEMOTIC most nouns of this class add the ending -ΑΣ to the stem to form a regular DEMOTIC noun. It should be noted that where the -ών ending changes into -ον in other cases the DEMOTIC also has an -ον before the ending -ΑΣ. Where the -ών remains unchanged, the DEMOTIC also keeps it unchanged. Examples:

ο χειμών	τοῦ χειμῶνος	ο χειμώνας
ο αἰών	τοῦ αἰώνος	ο αἰώνας
ο χανών	τοῦ χανόνος	ο χανόνας
ο επιστήμων	τοῦ επιστήμονος	ο επιστήμονας
η χιών	τῆς χιώνος	τό χιώνι

- (g) Adjectives in -ών, -ών, -ον take the endings -έστερος, -έστατος in the comparative and superlative degrees respectively. (See #27d). Examples:

νοήμων	νοημονέστερος	νοημονέστατος
εὐδαιίμων	εὐδαιμονέστερος	εὐδαιμονέστατος

LESSON 73
GRAMMAR ANALYSIS
ΓΡΑΜΜΑΤΙΚΗ

- 29 (a) The third declension of nouns and adjectives. As stated in #1a of the Grammar Analysis of KATHAREVOYSA, nouns and adjectives are classified as belonging to one of three declensions as determined by the type of ending they take in the nominative singular. Thus, nouns of the first declension end in -ΑΣ or in -ΗΣ in the nominative case singular (masculine) and in -Α or in -Η in the nominative case singular (feminine.) First declension nouns do not occur in the neuter. (See also #3a, 5a, 7a, 7b). Nouns of the second declension end in -ΟΣ in the nominative singular (both masculine and feminine) and in -ΟΝ in the nominative singular of the neuter. (See #1a, 2a.)
- (b) All nouns and adjectives not fitting the above pattern belong to the third declension. Consequently nouns ending in KATHAREVOYSA in -ν, -ρ, -ς, -ξ, -ψ or in -α, -ι, -υ, or -ω (not fitting the ending types mentioned in #29a) belong in the third declension. The main characteristic of this so-called "third" declension is that in the possessive, dative and objective cases of the singular (and in all the cases of the plural) nouns and adjectives of this group have one more syllable than they do in the nominative and vocative cases of the singular.
Examples:

οὐελλην	ἡ δεσποινίς
τοῦ Ἐλληνος	τῆς δεσποινίδος
οὐδιερμηνεύς	ἡ σκωληκοειδῆτις
τοῦ διερμηνέως	τῆς σκωληκοειδίτιδος

ήτο ὅτι ḥ ἀσθενῆς εἶχε προσβληθῆ ἀπό ὄξεῖαν σκωλη-
κοειδίτιδα. Ἀπεφάσισαν νά ἔγχειρίσουν τὸν ναύτην
μόλις ἡ κατάστασίς του τό ἐπέτρεπεν. Εύτυχῶς ἡ
ἔγχειρησίς αὐτῇ θεωρεῖται πολὺ ἀπλῇ σήμερον. "Αλλο-
τε ὅμως δέν ήτο. Πολλοί ἀπέθανον ἐκ περιτονίτιδος
διότι δέν ἔκαμαν οἱ ἰατροί ἔγκαιρως τὴν ἔγχειρησίν
τῇς σκωληκοειδίτιδος.

Λεξιλόγιον Κειμένου

αἴφνιδίως	suddenly
ἀκτή, ἡ	coast
ἀσθένεια, ἡ	disease, sickness
ἀτυχῆς, -ῆς, -ές	unfortunate
διάγνωσις, ἡ	diagnosis
θέτω - ἔθεσα - θά θέσω	to put, to place, to apply
νοσηλεύω - ἔνοσηλευσα - θά νοσηλεύσω	to treat a patient, to nurse (a patient)
πλέω - ἔπλευσα - θά πλεύ- σω	to float / to sail
προσβάλλω -ομαί	to attack, to insult / to have an attack, to be in- sulted
σύμπτωμα, τό	symptom
συνιστῶ - συνέστησα θά συστήσω	to recommend / to intro- duce
χειροτερεύω	to worsen

(c) Most third declension nouns have become regularized in the DEMOTIC, i.e. they have changed their nominative case of the singular to fit their objective case, following the sound analogy of corresponding nouns of the first declension. Examples:

<u>Objective Case</u>	<u>Modern Nominative</u>	<u>Old Nominative</u>
τήν ἔφημερίδα	ἡ ἔφημερίδα	ἥ ἔφημερίς
τήν Ελληνίδα	ἡ Ελληνίδα	ἥ Ελληνίς
τῇ(ν) λέξι(ν)	ἡ λέξη	ἥ λέξις
τῇ(ν) θέσι(ν)	ἡ θέση	ἥ θέσις
τό(ν) δεκανέα	ὁ δεκανέας	ὅ δεκανεύς
τό(ν) Ελληνα	ο Ελληνας	ο Ἔλλην
τὸν πατέρα	ὁ πατέρας	ὅ πατήρ
τὸν κινητήρα	ο κινητήρας	ο κινητήρ

(d) The alternate declension patterns of feminine nouns in -ΙΣ, -ΙΔΟΣ (modern pattern -ΙΔΑ, -ΙΔΑΣ) and in -ΙΣ, -ΕΩΣ (modern pattern -Η, -ΗΣ, plural -ΕΙΣ, -ΕΩΝ) have already been discussed in detail. (See #169c of the DEMOTIC). For the sake of refreshing the student's memory, the declension pattern of some basic nouns of these classes is given below.

(b) The nouns ὁ σωλήν (pie, hose), and ὁ πυρήν (nucleus) are declined like ὁ Ἑλλην. The noun ὁ χαρακτήρ (character) is declined like ὁ χινητήρ.

31

Feminine nouns in -ΙΤΙΣ, -ΙΤΙΔΟΣ. A fairly large number of feminine nouns end in -ΙΤΙΣ. Most of these happen to be the names of diseases such as μυοκαρδῖτις, περιτονῖτις (peritonitis), πλευρῖτις (pleurisy), σκωληκοειδῖτις (appendicitis), etc. The nouns η δυναμῖτις (dynamite) and η πυρῖτις belong to this class.

ΓΡΑΜΜΑΤΙΚΗ

32 (a) Adjectives in -YΣ, -EIA, -Y. Adjectives ending in **-YΣ, -IA, -Y** in the DEMOTIC (βαρύς, βαριά, βαρύ) end in **-YΣ, -EIA, -Y** in KATHAREVOUSA. Adjectives of this class are declined according to the third declension pattern in the masculine and feminine genders. They are declined according to the first declension in the feminine gender. The adjectives ΟΞΥΣ, ΟΞΕΙΑ, ΟΞΥ (sharp, keen, acute) will serve as our model.

Singular

	<u>Masculine</u>	<u>Neuter</u>	<u>Feminine</u>
Nom.	όξυς	όξυν	ήξεια
Poss.	τοῦ οξέος	τοῦ οξέος	τῆς οξείας

Voc.	οξεῖς	οξέα	οξεῖαι

- (b) The adjectives βαθύς, βαρύς, βραδύς (slow), εύθυς (straight), ευρύς (broad, wide), πλατύς, παχύς, and ταχύς (fast, rapid) are declined like οξύς, οξεῖα, οξύ. The neuter form τό οξύν is also a noun meaning "acid".
- (c) The adjectives ημισυς, ημισεια, ημισυ (half) and θηλυς, θηλεια, θηλυ (female) follow the same declension pattern with the appropriate

accent shifts. The masculine and neuter forms are declined as follows. The feminine follows the familiar regular first declension pattern and will, therefore, not be declined here.

	<u>Singular</u>			
	<u>Masculine</u>	<u>Neuter</u>	<u>Masculine</u>	<u>Neuter</u>
Nom.	ὁ ἡμίσυς	τό ἡμίσυ	ὁ θῆλυς	τό θῆλυ

Obj.	τούς ἡμίσεις	τα ἡμίσεα	τούς θῆλεις	τα θῆλεα
Voc.	ἡμίσεις	ἡμίσεα	θῆλεις	θῆλεα

- (d) The comparative and superlative degrees of adjectives in -ΥΣ -ΕΙΑ -Υ take the endings -YTEPΩΣ, -YTEPA, -YTEPΩΝ and -YTATΩΣ, -YTATH, -YTATΩΝ. Examples:

βαρύς	βαρύτερος	βαρύτατος
βαρεῖα	βαρυτέρα	βαρυτάτη
βαρύ	βαρύτερον	βαρύτατον

- 33 (a) The most important nouns ending in -ΥΣ are ὁ ἰσχύς (power, strength), ὁ ἵχθυς (fish), η χλιτύς (slope) and ὁ μῦς (muscle, mouse). Model nouns η ἰσχύς and ὁ μῦς are declined

according to the following pattern:

Singular

	<u>Endings</u>		<u>Endings</u>	
Nom.	ή	ἰσχύς	-ς	ό μῆς
Poss.	τῆς	ἰσχύος	-ος	τοῦ μυος
Dat.	τῇ	ἰσχύῃ	-ι	τῷ μυῖ

Obj.	τάς	ἰσχύς	-ς	τούς μύς	-ς
Voc.		ἰσχύες	-ες	μύες	-ες

- (b) The noun ο πρέσβυς (ambassador) is declined as follows:

Singular

Plural

	<u>Endings</u>		<u>Endings</u>	
ο πρέσβυς	-υς	οι πρέσβεις	-εις	
τοῦ πρέσβεως	-ως	τῶν πρέσβεων	-εων	
τῷ πρέσβει	-ει	τοῖς πρέσβεσι	-εσι	
τόν πρέσβυν	-υν	τούς πρέσβεις	-εις	
πρέσβυ	-υ	πρέσβεις	-εις	

NOTE:

The vocative and the dative cases are not likely to be very much used in KATHAREVOUSA. The dative is almost completely an obsolete case. The KATHAREVOUSA form of the vocative is used when addressing important people by their official titles as βασιλεῦ (sire), κύριε πρύτανι (for a university rector), κύριε πρεσβύ (Mr. ambassador), κύριε καθηγητά, etc. For all practical purposes the student

can ignore the Dative and Vocative cases of KATHAREVOUSA concentrating his efforts on the Nominative Possessive and Objective cases.

LESSON 75
GRAMMAR ANALYSIS
ΓΡΑΜΜΑΤΙΚΗ

34 (a) The participles of Active Verbs. The Present (ενεστώτας) Participle. A participle is part adjective, part verb, because it is used sometimes as an adjective and sometimes as a verb. In the DEMOTIC the participles of active verbs end in -ΟΝΤΑΣ or -ΩΝΤΑΣ and are not declinable. In KATHAREVOUSA, however, they appear in a variety of forms expressing various subtle shades of meaning. The present participles of standard active verbs (corresponding to the English verb form in -ING) take the endings -ΩΝ, -ΟΥΣΑ, -ΟΝ to form the masculine, feminine, and neuter gender respectively. These endings are attached to the present (or continuous) stem of the verb and indicate action going on. Examples:

<u>Verb</u>	<u>Present Participle</u>		
πληρώω	ὁ πληρώων	ἡ πληρώνουσα	τό πληρῶνον
ἔτοιμάζω	ὅ ἔτοιμάζων	ἡ ἔτοιμάζουσα	τό ἔτοιμάζον
ἀπολύω	ὅ απολύων	ἡ απολύνουσα	τό απολύον
γράφω	ο γράφον	ἡ γράφευσα	τό γράφον

(b) These participles are declined like adjectives. The Masculine and Neuter are declined according to the first declension as the following model declension will indicate:

	<u>Singular</u>		
	<u>Masculine and Neuter</u>		<u>Feminine</u>
Nom.	ὁ πληρώνων	τό πληρῶνον	ἡ πληρώνουσα
Poss.	τοῦ πληρώνοντος	τοῦ πληρώνοντος	τῆς πληρωνούσης
Dat.	τῷ πληρώνοντι	τῷ πληρώνοντι	τῇ πληρωνούσῃ
Obj.	τὸν πληρώνοντα	τὸ πληρῶνον	τὴν πληρώνουσαν
Voc.	πληρώνων	πληρῶνον	πληρώνουσα

Plural

Nom.	οἱ πληρώνοντες	τά πληρώνοντα	αἱ πληρώνουσαι
Poss.	τῶν πληρωνόντων	τῶν πληρωνόντων	τῶν πληρωνουσῶν
Dat.	τοῖς πληρώνουσι	τοῖς πληρώνουσι	ταῖς πληρωνούσαις
Obj.	τούς πληρώνοντας	τα πληρώνοντα	τάς πληρωνούσας
Voc.	πληρώνοντες	πληρώνοντα	πληρώνουσαι

- (c) In ΚΑΤΗΛΕΙΡΕΟΥΣΑ the present participle, in addition to expressing the meaning of its DEMOTIC equivalent in -ΩΝΤΑΣ ("while doing" something, "by doing" something) it also means the one who is doing, and also simply doing, or the one who does. Examples:

<u>Greek</u>	<u>English</u>
1. Ὁ ἀνταποκρι- τῆς, γράφων ἔξ Αθηνῶν, εἶπε.	1. The correspondent, writing from Athens, said.
2. Ὁ γράφων ἔξ Αθηνῶν ἀντα- ποκριτής εἶπε.	2. The correspondent who is writing from Athens said.
3. Οἱ γράφογτες εἰς τάς εφημε- ρίδας πρέπει νά είναι προσεκτικοί.	3. Those who write in the newspapers should be careful.
4. Δέν γυνωρίζω τὴν γράφουσαν εἰς τὴν εφημε- ρίδα μας δημο- σιογράφον.	4. I don't know the lady journalist who writes in our paper.

- (d) Since participles are adjectives they agree in gender, number and case with the noun they qualify or refer to. When indefinite or general statements are made, the masculine form is used. See #3, above examples.

35 (a) Masculine and neuter nouns declined like participles in -ΩΝ, -ON. In addition to the

neuter nouns τό παρόν (present), τό παρελθόν (past), τό μέλλον (future), τό προϊόν (product) which are declined like the neuter form of the present participle, the following neuter nouns are declined the same way:

τό ένδιαφέρον	interest (something we like)
τό ὄν	being
τό περιβάλλον	environment, surroundings
τό συμφέρον	interest (something to our advantage)

- (b) The following third declension masculine nouns are declined like the masculine form of the present participle (γράφων).

ὁ ἄρχων	ruler, magistrate, nobleman
ὁ γέρων	old man
ὁ λέων	lion
ὁ ὁρίζων	horizon
ὁ παράγων	factor / person of consequence

- (c) In the DEMOTIC the above masculine nouns have become regularized either as masculine nouns with the ending -ΑΣ or as neuter nouns with the ending -Ι. Examples:

<u>KATHAREVOYSA</u>	<u>DEMOTIC</u>
ὁ ἄρχων	ὁ ἄρχοντας
ὁ γέρων	ὁ γέροντας
ὁ ὁρίζων	ὁ ὁρίζοντας
ὁ λέων	τό λιοντάρι

36 (a) The Past (*'Αόριστος*) or "completed action" form or active participles. In addition to the present participle in -ΩΝ, -ΟΥΣΑ, -ΟΝ there is another form of the active participle in KATHAREVOUSA. It denotes action that has been completed, or it refers to someone who has completed some action. This form of the participle adds the endings -ΑΣ, -ΑΣΑ, -ΑΝ onto the stem of the simple tenses. (The KATHAREVOUSA variant, if there are any variants, is the stem used). Examples:

<u>Verb</u>	<u>Stem of S. Tenses</u>	<u>Participle (Past or Completed Action)</u>		
λύω	λυσ-	λύσας	λύσασα	λύσαν
γράψω	γραψ-	γράψας	γράψασα	γράψαν
διδασκω	διδαξ-	διδάξας	διδάξασα	διδάξαν
πληρώνω	πληρωσ-	πληρώσας	πληρώσασα	πληρώσαν
κηρύττε	κηρύξ-	κηρούξας	κηρούξασα	κηρούξαν
πλέω	πλευσ-	πλευσας	πλεύσασα	πλεύσαν

(b) The masculine and neuter forms of these participles are also declined according to the third declension pattern. The feminine form is declined according to the first declension. The declension of the "past" or "completed action" form of the active participle is as follows:

Singular

	<u>Masculine & Neuter</u>	<u>Feminine</u>
Nom.	ὁ πληρώσας	τὸ πληρῶσαν
Poss.	τοῦ πληρώσαντος	τῆς πληρωσάστης
Dat.	τῷ πληρώσαντι	τῇ πληρωσάσῃ
Obj.	τὸν πληρώσαντα	τὴν πληρωσάσαν
Voc.	πληρώσας	πληρῶσα

Plural

Nom.	οἱ πληρώσαντες	τά πληρώσαντα	αι πληρώσασαι
Pos.	τῶν πληρωσάντων	τῶν πληρωσάντων	τῶν πληρωσασάν
Dat.	τοῖς πληρώσασι	τοῖς πληρώσασι	ταῖς πληρωσασαῖς
Obj.	τούς πληρώσαντας	τά πληρώσαντα	τάς πληρωσάντας
Voc.	πληρώσαντες	πληρώσαντα	πληρώσασαι

- (b) The "past" or "completed action" form of the active participle is used in the sentence the same way as the present participle of active verbs with the difference that it denotes completed action rather than action going on.
Examples:

<u>English</u>	<u>Greek</u>
1. The journalist who wrote the news story left Athens.	1. Ο γράψας τήν ἀνταπόχρισιν, δημοσιογράφος ἔφυγεν εξ Αθηνῶν.
2. The journalist having written his news story, left Athens.	2. Ο δημοσιογράφος, γράψας τήν ἀνταπόχρισιν του ανέχωρησεν εξ Αθηνῶν.
3. Those who wrote these things aren't telling the truth.	3. Οἱ γράψαντες αὐτά δέν λέγουν τήν ἀλήθειαν.
4. I don't know the lady who wrote the news story.	4. Δέν γνωρίζω τήν γράψασαν τήν ἀνταπόχρισιν κυρίαν.

- 37 (a) Masculine and neuter nouns ending in -ΑΣ and -ΑΝ respectively. There are several masculine nouns in -ΑΣ and neuter nouns in -ΑΝ declined like the masculine and neuter forms of the above participles. The most commonly encountered

among them are:

ὁ ἀδάμας	diamond
ὁ ἄτλας	atlas, Atlas (myth)
ο γίγας	giant
ο ελεφας	elephant
τό σύμπαν	universe

- (b) The adjective πᾶς πᾶσα πᾶν (each, each one, everyone) is declined like the participle discussed in #36a with the exception that in the possessive and dative cases of the singular (masc. and neuter) the accent shifts to the last syllable (*τοῦ παντός, τῷ παντί*).
- (c) In the DEMOTIC the masculine nouns of the class discussed in #37a have become regular - masculine, adding the ending -ΑΣ to the stem, or they have become neuter. Examples:

KATHAREVOUSA

ὁ ἀδάμας
ὁ ἄτλας
ο γίγας
ο ελεφας

DEMOTIC

τῷ διαμάντι
ο "Ατλαντας
ο γίγαντας

38 (a) The Derivatives of Basic Verbs. The verb ΒΑΛΛΩ - ΒΑΛΛΟΜΑΙ. There are a few basic verbs which, in combination with prefixes, form a great number of derivatives. One of these important verbs is the ancient verb ΒΑΛΛΩ (to hit, to strike, to attack, to fire with a weapon) whose passive or reflexive counterpart is ΒΑΛΛΟΜΑΙ (to be hit, to be struck, to be fired at). The principal parts of ΒΑΛΛΩ - ΒΑΛΛΟΜΑΙ are as follows:

βάλλω, ἔβαλλον, ἔβαλα,
θά(νά) βάλω -- βαλε-βαλετε

βάλλομαι, ἔβαλλόμην, ἔβλήθην,
θά(νά) βαληθώ -- ____ -βληθήτε

(b) The noun derivative of the verb ΒΑΛΛΩ is Η ΒΟΛΗ (gunshot, firing, gunfire). A few of the most important verb and noun derivatives of ΒΑΛΛΩ - ΒΑΛΛΟΜΑΙ are given below. It should be noted that occasionally the derivatives of a basic word have an entirely different meaning from what one might be led to suspect from the two component parts. By and large, however, one can guess fairly accurately the meaning of these derivative words from the meaning of the basic ones. The following derivatives of ΒΑΛΛΩ should make this clear.

<u>Verb</u>	<u>Noun</u>
ἀναβάλλω to postpone	ἡ ἀναβολή postponement
ἀποβάλλω to expel, to oust	ἡ ἀποβολή expulsion miscarriage
εἰσβάλλω to invade	ἡ εἰσβολή invasion

έπιβάλλω	to impose, to enforce	η έπιβολή	enforcing
έπιβάλλομαι	to command respect, to get the up- per hand, to be enforced		
καταβάλλω	to exert, to overcome /to pay	η καταβολή	payment
μεταβάλλω	to change	η μεταβολή	change / a- bout face
παραβάλλω	to compare	η παραβολή	parable
περιβάλλω	to surround	η περιβολή	attire
προβάλλω	to project	η προβολή	projecting, projection, showing of slides or movies
προσβάλλω	to attack, to insult	η προσβολή	attack, in- sult
συμβάλλω	to contrib- ute	η συμβολή	contribution (of effort), confluence (of rivers)
ὑποβάλλω	to submit, to subject	η υποβολή	submitting, suggestion (psych.)

* * * * *

άμφιβάλλω	to doubt	η άμφιβολία	doubt
διαβάλλω	to slander	ὁ Διάβολος	the Devil

NOTE: The basic rules concerning the correct position of the augments before the basic verb should be kept in mind at all times when dealing with all the derivatives of the verb ΒΑΛΛΩ - ΒΑΛΛΟΜΑΙ. All pertinent phonetic changes of prefixes caused by the augments in the past tenses (see #16a, 16b, 21b, 21c) are applicable in connection with all derivatives of ΒΑΛΛΩ.

Review on the Correct Use of
the Participles of Standard Active Verbs

The participles of active verbs (whether indicating action in progress, repeated action, or completed action) are used as follows:

- (1) As adjectives qualifying a noun like any other adjective. In KATHAREVOYSA an adjective can either precede the noun it qualifies directly (as in the DEMOTIC) or it can be separated from it by a whole phrase (unlike the DEMOTIC). This applies to the participles as well. Examples:

'O éπιστρέφων ἀ-
ξιωματικός παρου-
στάζεται αὐτέσως
εἰς τὴν μονάδα
του.

The returning officer
reports immediately to
his unit.

Tó éπιστρέψαν ἔκ
τοῦ ταξειδίου του
πλοϊκύν θά μείνῃ
εἰς τού, λιμένα
μας δι επισκευάς.

The ship which has re-
turned from its trip
will stay in our harbor
for repairs.

Δέν ξῆδον ἀκόμη
τὴν επιστρέψασαν
εξ Ουάσιγκτων ε-
πιτροπήν.

I haven't seen yet the
delegation which has
returned from Washing-
ton.

Δέν ξῆδον ἀκόμη
τὴν επιτροπήν, τὴν
επιστρέψασαν ἐξ
Ουάσιγκτων.

I haven't seen yet the
delegation which has
returned from Washing-
ton.

- (2) As nouns, referring to the words he who, the person, who, the man who, those who, etc. In translating such sentences into

English such phrases as "the one who---", "the person who---", "those who...", "the people who---" usually start the sentence.
Examples:

Οι γράφοντες, έπι- Those who write (writing) letters to the
στολας εις τάς εφημερίδας πρέπει papers should sign them.
νά τάς υπογράφουν.

'Ο διδάσκων δι- The one who teaches is
δασκεται.

Οι πληρώσαντες έ- Those who paid asked
ζητησαν απόδειξιν. for a receipt.

- (3) In an adverbial capacity, in which case their usage can often parallel that of the DEMOTIC participle in -ΟΝΤΑΣ. Participles used this way are not preceded by the article. Examples:

'Ο στρατηγός, The general, returning
επιστρέψων εκ from his trip, wrote
τοῦ ταξιδίου του, his report immediately.
ἔγραψεν αμέσως
την αναφοράν του.

'Ο κύριος X, ἀγο- By buying merchandize
ράζων εμπορεύματα at low cost Mr. X became rich.
εις χαμηλήν τιμήν,
επλούτισεν.

'Ο ἀθλητής, τρέχων The athlete, running
μέ σόλην την δύνα- with all his strength,
μήν του ἔχερδισε won at the Olympic games.
εις τούς Ολυμπια-
κούς αγῶνας.

- 39 (a) The Second Aorist of Active Verbs. Certain active verbs form their simple past (aorist) by adding the endings of the imperfect to the stem of their simple tenses. This form of the simple past is called the second aorist to distinguish it from the regular simple past which is called the aorist. Most of the verbs favoring a second aorist also may appear in the regular aorist. A list of the most important verbs forming second aorists is given below. The DEMOTIC variant of these verbs, if any, appears in parenthesis right next to the KATHAREVOUSA form.

<u>Present Tense</u>	<u>Second Aorist</u>
1. ἄγω	ῆγαγον
2. αποθνήσκω (πεθαίνω)	ἀπέθανον
3. βάλλω (βάζω)	ἔβαλον
4. βλέπω	εἶδον
5. ευρίσκω (βρίσκω)	εὗρον - ηὗρον
6. ἔχω	ἔσχον
7. λαμβάνω (λαβαίνω)	ἔλαβον
8. λανθάνω	ἔλαθον
9. λέγω	εἶπον
10. λειπω	ἔλιπον
11. μανθάνω (μαθαίνω)	ἔμαθον
12. πάσχω	ἔπαθον
13. πίνω	ἔπιον
14. πίπτω (πέφτω)	ἔπεσον
15. τρώγω	ἔφαγον
16. τυγχάνω (τυχαίνω)	ἔτυχον
17. φέρω (φέρνω)	ῆνεγκον
18. φεύγω	ἔφευγον

- (b) The deponent verb *ἔρχομαι* which normally is conjugated like an active verb in the simple tenses also takes a second aorist.

ἔρχομαι

ችአዥኑ

(c) The conjugation of the second aorist of the verb λέγω, which will serve as our model, is as follows:

1. εἶπον	εἴπομεν
2. εἶπες	εἴπετε
3. εἶπε	εἴπον

40 (a) The Past (completed action) Participle of Active verbs taking a second aorist in their indicative mood is formed by adding the endings -ών, -οῦσα, -όν to the stem of their simple tenses. These are the same endings as those of the standard present participles discussed in #34a with the difference that the stress falls on the last syllable of their masculine and neuter genders and on the syllable before the last on their feminine gender. The declension pattern of the participle εἰπών - εἰποῦσα - εἰπόν is given below.

Singular

Masculine and Neuter

Nom.	ο εἰπών	τό εἰπόν
Poss.	τοῦ εἰπόντος	τοῦ εἰπόντος
Dat.	τῷ εἰπόντι	τῷ εἰπόντι
Obj.	τὸν εἰπόντα	τὸ εἰπόν
Voc.	εἰπών	εἰπόν

Feminine

ἡ εἰποῦσα
τῆς εἰπούσης
τῇ εἰπούσῃ
τήν εἰπούσαν
εἰποῦσα

Plural

Nom.	οι εἰπόντες	τά εἰπόντα	αι εἰποῦσαι
Poss.	τῶν εἰπόντων	τῶν εἰπόντων	τῶν εἰπούσῶν
Dat.	τοῖς εἰποῦσι	τοῖς εἰποῦσι	τοῖς εἰπούσαις
Obj.	τούς εἰπόντας	τα εἰπόντα	τάς εἰπούσας
Voc.	εἰπόντες	εἰπόντα	εἰποῦσαι

(b) All verbs listed in #39a form their past (completed action) participles according to the above pattern. Their past active participles,

in all three genders, are therefore as follows:

1. ἄγαγών*	ἄγαγοῦσα*	ἄγαγόν*
2. ἀποθανών	ἀποθανοῦσα	ἀποθανόν
3. βαλών	βαλοῦσα	βαλόν
4. ἰδών	ἰδοῦσα	ἰδόν
5. ευρών	ευροῦσα	ευρόν
6. σχών*	σχοῦσα*	σχόν*
7. λαβών	λαβοῦσα	λαβόν
8. λαθών*	λαθοῦσα*	λαθόν*
9. εἰπών	εἰποῦσα	εἰπόν
10. λιπών*	λιποῦσα*	λιπόν*
11. μαθών	μαθοῦσα	μαθόν
12. παθών	παθοῦσα	παθόν
13. πιών	πιοῦσα	πιόν
14. πεσών	πεσοῦσα	πεσόν
15. φαγών	φαγοῦσα	φαγόν
16. τυχών	τυχοῦσα	τυχόν
17. ενεγκών*	ενεγκοῦσα*	ενεγκόν*
18. φυγών	φυγοῦσα	φυγόν
19. ελθών	ελθοῦσα	ελθόν

- (c) Augments added before the basic verb if preceded by prefixes or initial vowel changes of verbs starting with a vowel account for the apparent discrepancies in the stems of the second aorists of the verbs listed in 39a and their past participles listed in 40b. Note:

<u>Second Aorist</u>	<u>Past (Active)</u>	<u>Participle</u>	<u>Simple Stem</u>
ἄγαγον	ἄγαγών -οῦσα -όν	ἄγαγ-	
ἀπέθανον	ἀποθανών -οῦσα -όν	ἀποθαν-	
εἶδον	ἰδών -οῦσα -όν	ἰδ-	
ἐνεγκον	ενεγκών -οῦσα -όν	ενεγκ-	

* Verbs marked with asterisks occur primarily in Ancient Greek. However, they appear frequently with prefixes in Modern Greek taking the stems shown here.

41 (a) Derivatives of verb EPXOMAI. The deponent verb EPXOMAI is conjugated like an active verb in its simple tenses. In the simple past it can take the endings either of the regular or of the second aorist as explained in #39 a. This verb, combining with various prefixes, forms a great number of important derivative verbs as will be seen on the following table:

1. εἰσέρχομαι to go in, to enter
2. ἐξέρχομαι to go out, to exit
3. συνέρχομαι to assemble, to get together, to come to (to regain one's strength), to recover
4. προσέρχομαι to come, to appear (law)
5. προέρχομαι to come from, to result from
6. ἀνέρχομαι to go up, to ascend, to amount
7. κατέρχομαι to go down, to descend, to come down
8. διέρχομαι to pass through
9. ἐπανέρχομαι to return
10. περιέρχομαι to go about, to come into (one's knowledge on possession), to be reduced to
11. ἀπέρχομαι to leave, to depart
12. παρέρχομαι to pass, to be over with

(b) The conjugation of the derivatives of EPXOMAI follows the well known rule of adding the augment before the main verb. Verb EPXOMAI is conjugated in KATHAREVOUSA as follows:

Continuous Tenses

<u>Present</u>	<u>Imperfect</u>	<u>Cont. Future & Cont. Inf./Subj.</u>
1. ἔρχομαι	ήρχόμην	θά(vá) ἔρχωμαι
2. ἔρχεσαι	ήρχεσο	θά(vá) ἔρχεσαι

1. ἔρχόμεθα	ήρχόμεθα	θά(vá) ἔρχόμεθα
2. ἔρχεσθε	ήρχεσθε	θά(vá) ἔρχεσθε

Past (Completed Action) Participle

ἔλθων - ἔλθοσσα - ἔλθόν

Simple Imperative

- (c) Following the conjugation pattern just given, the principal parts of model verb ΕΙΣΕΡΧΟΜΑΙ are as follows:

είσέρχομαι, είσηρχόμην, εἰσῆρθον, θά(vá) είσέλθω
 (εἰσῆλθα)
 ἔχω - εἶχον είσέλθει -- εἰσερχόμενος, -ομένη, -όμενον
 είσελθών, -ούσα, -όν -- εῖσελθε - εισέλθετε

- (d) The past, or completed action participle of the above verbs follows the basic pattern shown in #41 c above. Examples:

είσελθών	-ούσα	-όν	χατελθών	-ούσα	-όν
έξελθών	-ούσα	-όν	διελθών	-ούσα	-όν
συνελθών	-ούσα	-όν	επανελθών	-ούσα	-όν

προελθών	-ούσα	-όν	παρελθών	-ούσα	-όν
ἀνελθών	-ούσα	-όν	ατελθών	-ούσα	-όν

- 42 (a) Prepositions ΠΡΟΣ and ΠΕΡΙ. The preposition ΠΡΟΣ agreeing with the objective case means toward, in the direction of, to, in, at and for. Examples:

(b) The preposition ΠΕΡΙ, agreeing with the objective case, means around, toward. Agreeing with the possessive case it means about (a topic or subject). Examples:

1. Η γῆ στρέφεται 1. The earth revolves around

- 43 (a) The Participles of Passive Verbs. The Present Passive (continuous) participle. The continuous (or present) participle of passive verbs (which term includes here all verbs in -OMAI) is formed by adding the endings -OMENOS, -OMENH, -OMENON to the stem of the continuous tenses. Examples:

<u>Verb</u>	<u>Cont. (Present Passive) Participle</u>
-------------	---

πληρώνομαι	πληρωνόμενος	πληρωνόμενη	πληρωνόμενον

συνοδεύομαι	συνοδευόμενος	συνοδευόμενη	συνοδευόμενον

- (b) The Present Passive (continuous) participle is the passive voice counterpart of the present participle of the Active Voice. It is used in the sentence according to the same principles. (See NOTE preceding lesson). Examples:

1. Οι πληρωνόμενοι 1. Those who get paid sign υπογραφουν απόδει- a receipt.

(c) The declension pattern of the present passive (continuous) form of the participle is exactly the same as that of the corresponding adjectives. The masculine and neuter forms are declined like corresponding second declension adjectives. The feminine is declined like the corresponding first declension adjectives. (See KAΘ. #1c, 2a, 11e). Participle ΣΥΝΟΔΕΥΟΜΕΝΟΣ, -ΣΥΝΟΔΕΥΟΜΕΝΗ, ΣΥΝΟΔΕΥΟΜΕΝΟΝ will serve as our model.

- 45 (a) The simple or "completed action" participle of passive verbs. The simple participle of passive verbs indicates completed action, exactly the same way as its active counterpart does. It is formed by adding the endings -ΕΙΣ, -ΕΙΣΑ, -ΕΝ to the simple stem of passive verbs. Where there are DEMOTIC and KATHAREVOUSA stem variants, the latter stem is always used. Examples:

<u>Verb (Passive)</u>	<u>Stem of Simple Tenses</u>	<u>Past Passive Participle</u>	
πληρώνομαι	πληρωθ	πληρωθείς	- πληρωθεῖσα - πληρωθέν
έτοιμάζομαι	έτοιμασθ (έτοιμαστ)	έτοιμασθείς	- έτοιμασθεῖσα - έτοιμασθέν
στέκομαι	σταθ	σταθείς	- σταθεῖσα - σταθέν
συνοδεύομαι	συνοδευθ	συνοδευθείς	- συνοδευθεῖσα - συνοδευθέν
συμπτύσσομαι	συμπτυχθ	συμπτυχθείς	- συμπτυχθεῖσα - συμπτυχθέν

- (b) The declension pattern of these participles is given below. The masculine and neuter genders are declined according to the third declension. The feminine, according to the first. The participle ΕΤΟΙΜΑΣΘΕΙΣ - ΕΤΟΙΜΑΣΘΕΙΣΑ - ΕΤΟΙΜΑΣΘΕΝ will serve as our model.

Singular

Masculine and Neuter

Nom.	ὁ ἔτοιμασθείς	τό ἔτοιμασθέν
Pos.	τοῦ ἔτοιμασθέντος	τοῦ ἔτοιμασθέντος
Dat.	τῷ ἔτοιμασθέντι	τῷ ἔτοιμασθέντι

	<u>Singular</u>	<u>Plural</u>
Nom.	ἡ ἔτοιμασθεῖσα	αι ἔτοιμασθεῖσαι
Pos.	τῆς ἔτοιμασθείσης	τῶν ἔτοιμασθείσῶν

Obj.	τὴν ἔτοιμασθεῖσαν	τὰς ἔτοιμασθεῖσας
Voc.	ἔτοιμασθεῖσα	ἔτοιμασθεῖσαι

- (c) Correct use of these participles follows the rules already set forth in connection with the present participle (passive). The completion of the action rather than its progression sets it apart from participles in -OMENOΣ, -OMENH, -OMENON.
- (d) The noun τὸ ἀναχοινωθέν (communiqué, war bulletin) is declined like the neuter gender of the simple passive participle.

1. Οὐενοφῶν ἔζησε πρό Χριστοῦ.	1. Xenophon lived before Christ.
2. Οὐα. Μελᾶς ἐγεν- νήθη πρό τοῦ πο- λεμού.	2. Mr. Melas was born <u>before</u> the war.

47 (a) Adjectives derived from nouns indicating geographical locations or nationality. Both in KATHAREVOUSA and in the DEMOTIC nouns indicating a geographical location or nationals of a country are proper nouns and are capitalized. Adjectives derived from these nouns, however, are not capitalized. They usually -- but not always -- end in -ικός, -ική, -ικό(ν). Examples:

ἡ Ἀγγλία Ἀγγλος ἀγγλικός, -ή, -ό(ν)
 η Αμερική Αμερικανός αμερικανικός, -ική, -ικό(ν)

(b) The names of the continents and those of the inhabitants of the continents are indicated on the following table:

Εύρωπη, ή	Εύρωπαῖος	Εύρωπαια	εύρωπαικός, -ή, -ό(ν)
Ασία, ή	Ασιάτης	Ασιάτισσα (Ασιάτις)	ασιατικός, -ή, -ό(ν)
Αφρική, ή	Αφρικανός	Αφρικανίδα (Αφρικανίς)	αφρικανικός, -ή, -ό(ν)
Αμερική, ή	Αμερικανός	Αμερικανίδα (Αμερικανίς)	αμερικανικός, -ή, -ό(ν)
Αύστραλία, ή	Αύστραλος	Αύστραλη	αυστραλιανός, -ή, -ό(ν)
Ανταρκτική, ή			

- (c) The languages spoken by various people usually end in -ιχά, they are in the neuter plural, and are not capitalized. In KATHAREVOUSA the languages are given in the feminine singular, the word η γλώσσα (language) being implied. Examples:

<u>Demotic</u>	<u>Katharevousa</u>
τά έλληνιχά	η Ἑλληνική
τά αγγλιχά	η γαλλική
τά γαλλιχά	η γαλλική
τά τουρκιχά	η τουρκική

GRAMMAR ANALYSIS
ΓΡΑΜΜΑΤΙΚΗ

47 (a) The present and past perfect participles of passive verbs. Passive verbs have another kind of participle in addition to the present (continuous action) and past (completed action) participles. They are the present perfect and past perfect participles, roughly corresponding (on several occasions to the English past participle. To understand their formation, and some of the peculiarities they present in KATHAREVOUSA, a synopsis of their formation in the DEMOTIC (see also #133a) will be given here. In both KATHAREVOUSA and in the DEMOTIC the endings -ΜΕΝΟΣ, -ΜΕΝΗ, -ΜΕΝΟ(Ν) are added to the simple stem of the passive verb in accordance with the following rules:

- (1) If the simple stem of the passive verb ends in -θ the participle ending -ΜΕΝΟΣ knocks off the -θ ending of the stem making the participle to end in -ΜΕΝΟΣ. Examples (from the DEMOTIC:)

<u>Verb</u>	<u>S.Past(Pass.)</u> <u>S.Stem(Pass.)</u>	<u>Perfect</u> <u>Participle</u>
ιδρύομαι	ιδρύθηκα (ιδρυθ-)	ιδρυμένος
δένομαι	δέθηκα (δεθ-)	δεμένος
κρίνομαι	κρίθηκα (κριθ-)	κριμένος
άγαπιέμαι	αγαπήθηκα (αγαπηθ-)	άγαπημένος
στενοχωριέμαι	στενοχωρέθηκα (στενοχωρεθ-)	στενοχωρεμένος
πικραίνομαι	πικράθηκα (πικραθ-)	πικραμένος

- (2) If the simple stem of the passive verb ends in -ΣΤ (or -ΣΘ) the participle ending -ΜΕΝΟΣ knocks off only the -Τ or -Θ of the stem ending thus making the participle to end in -ΣΜΕΝΟΣ. Examples:

ἀκούομαι	ἀκούστηκα (ἀκούστ, -σθ)	ἀκουσμένος
δανείζομαι	δανείστηκα (δανειστ, -σθ)	δανεισμένος
πλάθομαι	πλάστηκα (πλαστ, -σθ)	πλασμένος
γελιέμαι	γελάστηκα (γελαστ, -σθ)	γελασμένος

- (3) If the simple stem of the passive verb ends in -Χ, -ΧΤ (or -ΧΘ) the ending -Χ, -ΧΘ or -ΧΤ changes into Γ before the ending -ΜΕΝΟΣ is added to the stem, making the participle to end in -ΓΜΕΝΟΣ. Examples:

διδάσκομαι	διδάχτηκα (διδαχτ, -χθ)	διδαγμένος
διώχνομαι	διώχτηκα (διώχτ, -χθ)	διωγμένος
ἀνοίγομαι	ἀνοιχτηκα (ἀνοιχτ, -χθ)	ἀνοιγμένος
παιζεται	παιχτηκε (παιχτ -χθ)	παιγμένος
τραβιέμαι	τραβηχτηκα (τραβηχτ, -χθ)	τραβηγμένος

- (4) If the simple stem of the passive verb ends in -Φ, in -ΦΤ (or -ΦΘ) the ending -Φ, -ΦΤ (or -ΦΘ) changes into -Μ before the ending -ΜΕΝΟΣ is added to the stem, thus making the participle to end in -ΜΜΕΝΟΣ. Examples:

τρίβομαι	τρίφτηκα (τριφτ, -φθ)	τριμμένος
στρέφομαι	στράφηκα (στραφ-)	στραμμένος

γράφομαι	γράφτηκα (γραφτ-, -φτ)	γραμμένος
ἀνακαλύπτομαι	ἀγακαλύψτηκα (ἀνακαλυψτ-, -ψτ)	ἀνακαλυμμένος
κλαί(γ)ομαι	κλάφτηκα (κλαφτ-)	κλαμμένος

- (5) If the simple stem of the passive verb ends in -EYT (or -ΕΥΘ), or in -AYT (or -ΑΥΘ) the participle ends in -MENOΣ when the simple stem of the active voice ends in -Ψ. It ends in -ΕΥΜΕΝΟΣ or -ΑΥΜΕΝΟΣ if the simple stem of the active voice ends in -ΕΥΣ or -ΑΥΣ. Examples:

<u>Verb</u>	<u>S.Past (Act.)</u>	<u>S.Past(Pas.)</u>	<u>Perfect Participle</u>
παντρεύω -ομαι	πάντρεψα (παντρεψ-)	παντρεύτηκα (παντρευτ-)	παντρεμένος
κουρεύω -ομαι	κούρεψα (κουρεψ-)	κουρεύτηκα (κουρευτ-)	κουρεμένος
μαγειρεύω -ομαι	μαγειρεψα (μαγειρεψ-)	μαγειρεύτηκα (μαγειρευτ-)	μαγειρεμένος
έκπαιδεύω -ομαι	έχπαιδευσα (έκπαιδευσ-)	έκπαιδεύτηκα (έκπαιδευτ-, ευθ)	έκπαιδευμένος
ἀπαγορεύω -ομαι	ἀπαγόρευσα (ἀπογορευσ-)	ἀπαγορεύθηκα (ἀπογορευτ-, ευθ)	ἀπαγορευμένος

- (6) Irregular verbs and groupings consisting of only a few verbs are not included in this list whose purpose is to cover the large groupings of verb types. Special cases will be taken up as they occur.

- (b) Correct use of the passive present and past perfect participles in KATHAREVOYSA and in the DEMOTIC. There are no differences in the usage of this participle in KATHAREVOUSA and the DEMOTIC version of this course apply to both versions of Modern Greek. To review these rules:

- (1) Passive perfect participles are used as

pure adjectives. Examples:

ὁ κουρασμένος στρατιώτης
ἡ κουρασμένη γυναίκα
τὸ κουρασμένο παιδί

- (2) They are used as nouns when referring to such words as a person, the one who, someone, those, those who, etc. In this case the nouns they refer to are implied, not given. Examples:

Οἱ γικημένοι ὑπέφεραν.
Μετέφεραν τούς τραυματισμένους στό νοσοκομεῖο.

- (3) As words partaking of the action of a verb but referring to the condition resulting from the action, rather than to the action itself. When used in this last case they are preceded by the verb εἰμαι used as an auxiliary verb or by other linking verbs such as αἰσθάνομαι, βρίσκομαι (εὑρίσκομαι), μένω, στέκομαι, φαίνομαι, etc. Certain other verbs such as καθομαι, φωνάζω, etc. may be used as linking verbs if the situation demands it. (There are occasions when the present and past perfect tenses of the passive verb can denote the same idea as the one denoted by the passive perfect participle.) Examples:

- | | |
|---|---|
| 1. "Οταν γύρισα ἀπ'"
τό ταξίδι μου, βρήκα τὴν αδελφή μου | 1. 'Η ἀδελφή μου εἶχε παντρευτῆν, πρίν να γυρίσω απ' τὸ ταξίδι μου. |
| 2. Τό πρόβλημα αὐτό εἶναι λυμένο από πολύν καιρό. | 2. Τό πρόβλημα αὐτό ἔχει λυθῆνε εδῶ και πολύν καιρό (πρίν από πολύν καιρό.) |
| 3. Οἱ μαθηταί εἶναι φορτωμένοι μὲν πολλά μαθήματα. | 3. Οἱ μαθηταί ἔχουν φορτωθῆνε μέν πολλά μαθήματα. |

απ τὴν εργασία μας τὴν εργασία μας.
5. Αὕτη ἡ χώρα μοῦ φά- 5. (no equivalent)

νη.

48 (a) The formation of the Passive Perfect Participle in KATHAREVOUSA. In both KATHAREVOUSA and the DEMOTIC the rule governing the stem changes resulting from the addition of the endings -ME-NOΣ, -ΜΕΝΗ, -ΜΕΝΟΝ to the simple stem of passive verbs is the same. The main difference between the two languages is that in KATHAREVOUSA the present and past perfect participles of the passive voice take a prefix comparable to the augmenta taken by the past tenses of verbs. Passive perfect participles starting with vowels do not add a prefix but change their initial vowel in exactly the same way as they do in the two past tenses of KATHAREVOUSA (See #17a.) To review these vowel changes:

a	and	ε	change into	η
αν	and	εν	change into	ην
		ο	changes into	ω
αι	and	οι	change into	η and φ respectively
η,ι,υ,ω	and	ει	do not change	

(b) The following table showing the formation of the passive perfect participle in KATHAREVOUSA and in the DEMOTIC should make the rule given above fairly clear:

<u>Verb</u>	<u>S. Stem (Passive)</u>	<u>Passive Perfect Participle</u>	
		<u>(Demotic)</u>	<u>(Katharevousa)</u>
ἀναγκάζομαι	ἀναγκασθ-	ἀναγκασμένος	ἡναγκασμένος
ἔτοιμάζομαι	ἔτοιμασθ-	ἔτοιμασμένος	ητοιμασμένος
οργανώνομαι	οργανωθ-	οργανωμένος	ωργανωμένος

ρίζομαι	ρισθ-	ρισμένος	ρισμένος
οπλίζομαι	οπλισθ-	οπλισμένος	οπλισμένος
αγξάνομαι	αγξηθ-	αγξημένος	αγξημένος
αιχμαλωτίζομαι	αιχμαλωτισθ-	αιχμαλωτισμένος	αιχμαλωτι-

ήττημαι	ήττηθ-	ήττημένος	ήττημένος
βούομαι	βρυθ-	βρυμένος	βρυμένος
ωφελούμαι	ωφεληθ-	ωφελημένος	ωφελημένος
ειδικεύομαι	ειδικευθ-	ειδικευμένος	ειδικευμένος

LESSON 83
GRAMMAR ANALYSIS
ΓΡΑΜΜΑΤΙΚΗ

49 (a) The passive perfect participle of verbs starting with a consonant. Reduplication. Passive perfect participles starting with a consonant take a prefix consisting of the initial consonant of the participle followed by the vowel ε. This is known as reduplication. Examples:

<u>Verb</u>	<u>S. Stem (Passive)</u>	<u>Passive Perfect Participle</u>	
		(Demotic)	(Katharevousa)
βιάζομαι	βιασθ-	βιασμένος	βεβιασμένος
γράφομαι	γραφ-	γραμμένος	γεγραμμένος
διώχομαι	διωχ-	διωγμένος	δεδιωγμένος
χρίνομαι	χριθ-	χριμένος	κεχριμένος
λύσομαι	λυθ-	λυμένος	λελυμένος
νικῶμαι	νικηθ-	νικημένος	νενικημένος
πιέζομαι	πιεσθ-	πιεσμένος	πεπιεσμένος
ταράσσομαι	ταραχθ-	ταραγμένος	τεταραγμένος
τελοῦμαι	τελεσθ-		τετελεσμένος

(b) Certain consonants do not follow this rule as neatly as indicated in the above examples. For reasons having to do with the phonology of the ancient language, participles whose initial consonants are χ, φ, or θ form their reduplication in the following manner as illustrated by the following examples:

initial φ changes into π
initial θ changes into τ
initial χ changes into ς

<u>Verb</u>	<u>S. Stem (Passive)</u>	<u>Passive Perfect Participle</u>	
		(Demotic)	(Katharevousa)
φωτίζομαι	φωτισθ-	φωτισμένος	πεφωτισμένος
θωρακίζομαι	θωρακισθ-	θωρακισμένος	τεθωρακισμένος
χωρίζομαι	χωρισθ-	χωρισμένος	κεχωρισμένος

- (c) Participles whose initial consonants are ζ , ξ , ψ , σ (followed by another consonant) or a cluster of three consonants take only the augment instead of a regular reduplication.
Examples:

$\zeta\omega\nu\mu\alpha i$	$\zeta\omega\theta-$	$\zeta\omega\mu\epsilon\nu\cos$	$\acute{\epsilon}\zeta\omega\mu\epsilon\nu\cos$
$\xi\nu\rho\alpha i\nu\mu\alpha i$	$\xi\nu\rho\alpha\theta-$	$\xi\nu\rho\alpha\mu\epsilon\nu\cos$	$\acute{\epsilon}\xi\nu\rho\alpha\mu\epsilon\nu\cos$
($\xi\nu\rho\alpha i\nu\mu\alpha i$)	$\xi\nu\rho\alpha\theta-$	$\xi\nu\rho\alpha\mu\epsilon\nu\cos$	
$\psi\eta\phi i\zeta\omega\mu\alpha i$	$\psi\eta\phi i\sigma\theta-$	$\psi\eta\phi i\sigma\mu\epsilon\nu\cos$	$\acute{\epsilon}\psi\eta\phi i\sigma\mu\epsilon\nu\cos$
$\sigma\tau\eta\rho i\zeta\omega\mu\alpha i$	$\sigma\tau\eta\rho i\chi\theta-$	$\sigma\tau\eta\rho i\gamma\mu\epsilon\nu\cos$	$\acute{\epsilon}\sigma\tau\eta\rho i\gamma\mu\epsilon\nu\cos$
$\sigma\tau\rho\epsilon\phi\mu\alpha i$	$\sigma\tau\rho\epsilon\phi\theta-$	$\sigma\tau\rho\epsilon\phi\mu\epsilon\nu\cos$	$\acute{\epsilon}\sigma\tau\rho\epsilon\phi\mu\epsilon\nu\cos$

- (d) Participles whose initial consonant is ρ also take the augment ϵ instead of the regular reduplication. However, the augment ϵ forces the initial ρ to be doubled. Examples:

$\rho\alpha\pi\tau\mu\alpha i$	$\rho\alpha\theta-$	$\rho\alpha\mu\epsilon\nu\cos$	$\acute{\epsilon}\rho\alpha\mu\mu\epsilon\nu\cos$
($\rho\alpha\beta\theta\mu\alpha i$)	$\rho\alpha\theta\tau-$	$\rho\alpha\mu\mu\epsilon\nu\cos$	
$\rho i\pi\tau\mu\alpha i$	$\rho i\theta\theta-$	$\rho i\mu\mu\epsilon\nu\cos$	$\acute{\epsilon}\rho i\mu\mu\epsilon\nu\cos$
($\rho i\chi\gamma\mu\alpha i$)	$\rho i\chi\tau-$	$\rho i\gamma\mu\epsilon\nu\cos$	
$\rho i\zeta\omega\mu\alpha i$	$\rho i\zeta\omega\theta-$	$\rho i\zeta\omega\mu\epsilon\nu\cos$	$\acute{\epsilon}\rho i\zeta\omega\mu\epsilon\nu\cos$

- (e) The words $\tau\epsilon\tau\epsilon\lambda\epsilon\sigma\mu\epsilon\nu\cos$, $-η$, $-ο$ (accomplished, completed) $\pi\epsilon\pi\epsilon\epsilon\mu\epsilon\nu\cos$, $-η$, $-ο$ (compressed) and $\tau\epsilon\theta\omega\rho\alpha\chi\mu\epsilon\nu\cos$, $-η$, $-ο$ (armored) have become part of the vocabulary of the DEMOTIC. The word TA TEΩΩΡΑΚΙΣΜΕΝΑ has become a noun meaning tanks, armor (one of the army branches.)

LESSON 84
GRAMMAR ANALYSIS
ΓΡΑΜΜΑΤΙΚΗ

50 (a) The correct position of the reduplication in participles precede by prefixes. The syllable created by the reduplication of the initial consonant of passive perfect participles (or the vowel changes occurring when the initial letter is a vowel) are placed before the basic participle and not before the prefix following the same rule verb augments do. (See #16a, b.) Participles having more than one prefix act likewise. The basic participle takes the reduplication. Examples:

<u>Verb</u>	<u>Passive Perfect Participle</u> (Demotic)	<u>(Katharevousa)</u>
ἀποχωρίζομαι	ἀποχωρισμένος	ἀποχεχωρισμένος
διαλύσμαι	διαλυμένος	διαλελυμένος
διακρίνομαι		διακεκριμένος
έγκαταλειπομαι	έγκαταλειψμένος	έγκαταλειψμένος
καταθλίβομαι	καταθλιμένος	κατατεθλιμένος
περιπλέκομαι	περιπλεγμένος	περιπεπλεγμένος
συμφωνῶ *	συμφωνημένος	συμπεφωνημένος
προχωρῶ *	προχωρημένος	προχεχωρημένος
ἐπανδρώνω		ἐπηνδρωμένος
ὑπογράφομαι	ὑπογραμμένος	ὑπογεγραμμένος
υποστηρίζομαι	υποστηριγμένος	υπεστηριγμένος
καταψήφιζομαι	καταψηφισμένος	κατεψηφισμένος
καταστρέφομαι	καταστραμμένος	κατεστραμμένος
περιστρέφομαι	περιστραμμένος	περιστραμμένος
ένγραφομαι		έγγεγραμμένος
εξαναγκάζομαι	εξαναγκασμένος	εξηναγκασμένος
προετοιμαζομαι	προετοιμασμένος	προητοιμασένος
διοργανώνομαι	διοργανωμένος	διωργανωμένος
επαυξάνομαι	επαυξημένος	επηυξημένος
καθορίζομαι	καθορισμένος	καθεωρισμένος

* Some verbs not occurring in the present tense of the Passive Voice still occur in the passive perfect participle.

- (b) The above rule is valid only as long as the prefixes are prepositions. When they are any other part of speech, the reduplication occurs before the initial syllable of the prefix. Examples:

(αἴτια λόγος) αἴτιολογῶ ήτιολογημένος
(οικία δομῶ) οιχοδομῶ φοδομημένος

- (c) The prefix εύ- (meaning "good" in ancient Greek) undergoes no vowel change in connection with reduplication.

εύχαριστοῦμαι εύχαριστημένος
εὐλογοῦμαι εὐλογημένος

- (d) The participles ἀφηρημένος (absent minded), ἐπιτετραμμένος (charge d' affaires), συγκεχριμένος (concrete), συντεταγμέναι, αἱ, (map coordinated), τεθλασμένη, η (crooked line) τεθωρακισμένος (armor) have become part of the general vocabulary of Modern Greek.

The declension of a typical feminine noun in -ΑΣ -ΑΔΕΣ is given below. It should be noted that these nouns follow the same declension pattern as feminine nouns ending in -ΙΣ -ΙΔΕΣ (See #29c)

53 (a) The conjugation of contracted verbs in -ω, -εῖς, -εῖ, and of their passive voice counter part in -οῦμαι, -εῖσαι, -εῖται. There is a great divergence in the conjugation pattern of verbs of this class between the KATHAREVOU SA and the DEMOTIC, especially in the continuous past (imperfect) tenses of both the active and the passive voice. Participles of this class have a declension pattern all their own to be taken up in lesson 87. Typical verb ΘΕΩ-ΠΩ - ΘΕΩΡΟΥΜΑΙ will serve as our conjugation model.

- 55 (a) Preposition ANA and ΠΑΡΑ. The preposition ANA, agreeing with the objective case, means throughout, all over. It also indicates portioning out of equal amounts of things, corresponding to one of the meanings of the preposition ΑΠΟ of the DEMOTIC. It should be remembered that the preposition ANA is used only in the KATHAREVOSA. Examples:

<u>Greek</u>	<u>English</u>
1. Ἡ εἴδησις διεδόθη <u>άνά τὴν πόλιν.</u>	1. The news was spread <u>throughout</u> the city.
2. Ἐπιχρατεῖ κῦμα καύ- σωνος <u>άνά τὴν χώραν.</u>	2. There is a heat wave <u>all over</u> the country.
3. Οἱ στρατιῶται ἐπρο- χώρουν <u>άνά τετράδας.</u>	3. The soldiers marched <u>four abreast.</u>
4. Οἱ μαθηταί ἔλαβον <u>άνά ἐν λεξικόν.</u>	4. The students received <u>one dictionary each.</u>

4. Ὁ ὑποψήφιος ἀπέτυχε <u>παρά μιαν ψήφον.</u>	4. The candidate <u>lost by</u> a vote.
5. Ἡ ώρα εἶναι τρεῖς <u>παρά πέντε.</u>	5. The time is five minutes <u>to</u> three (three minus five).

- (c) The preposition ΠΑΡΑ, agreeing with the possessive case, indicates the agent of a passive verb, the way the preposition ΑΠΟ does in the DEMOTIC. Examples:

1. Ἐδονείσθη χρήματα <u>παρά τῆς τραπέζης.</u>	1. I borrowed money <u>from</u> the bank.
---	---

2. "Ἐχω πληροφορηθῆ_ν πα-

Verb ΝΙΚΩ - ΝΙΚΩΜΑΙ (to win, to be defeated) will serve as our model.

60 (a) The Second Aorist of Passive Verbs. The simple stems of certain passive verbs do not end in -θ as those of all regular passive verbs do. When the KATHAREVOUSA endings of the past tense (-ην, -ης, -η, etc.) are added to such a simple stem, the resulting simple past tense is known as the Second Aorist. (See #39a) for the Second Aorist of Active Verbs.) The following passive (or deponent) verbs -- and their derivatives -- form Second Aorists. Their simple future tense is formed out of the same simple stem, as follows:

χαίρομαι	ἔχάρην	θά χαρῶ		to rejoice, to be glad

* The continuous tenses of ΒΑΙΝΩ are conjugated like those of an Active Verb.

- (b) The conjugation pattern of these verbs -- and their derivatives -- follows the general rule: All continuous tenses are formed out of the present tense stem. All simple tenses are formed out of the stem of the Second Aorist, or better (to avoid the complication of the augments) out of the stem of the simple future.
- (c) The past (completed action) participles of these verbs, and the perfect form of the participle -- where applicable -- are as follows:

<u>Past (Completed Action) Participle</u>	<u>Perfect Participle</u>
ἀλλαγεῖς - ἀλλαγεῖσα - ἀλλαγέν βας - βᾶσα - βᾶν	ήλλαγμένος, -η, -ον

Their declension pattern is given on the next page.

- 68 (a) Third declension masculine and feminine nouns ending in -Ξ (or -ΓΞ). When a third declension noun ends in -Ξ (in the nominative) the student can assume its stem ending to be a velar sound represented by one of the velar consonants -K, -Γ, or -Χ. If the noun ends in -ΓΞ, then the stem ending is -ΓΓ. The exact stem ending can be usually traced by thinking of the DEMOTIC counterpart of the word, or of any of its derivatives. Examples:

<u>KATHAREVOUSA</u>	<u>DEMOTIC</u>	<u>STEM ENDING</u>	<u>MEANING</u>
ο ἄνθραξ			carbon, charcoal, authrax
ο ἀστυφύλαξ	ο ἀστυφύλακας	-χ	policeman
ο χωροφύλαξ	ο χωροφύλακας	-χ	gendarme, sheriff
ο πρόσφυξ	ο πρόσφυγας	-γ	refugee
ή πτέρυξ	ή φτερούγα	-γ	wing

ή φλόξ	ή φλόγα	-γ	flame
ο βήξ	ο βήχας	-χ	cough
ο ὅνυξ	τό νύχι	-χ	fingernail, toenail
ή σάλπιγξ	ή σάλπιγγα	-γγ	bugle, trumpet
ή σήραγξ	ή σήραγγα	-γγ	tunnel

(b) The declension pattern of four typical nouns, one from each group is given below.

Dat.	ταῖς πτέρυξι	ταῖς σάλπιγξι
Obj.	τάς πτέρυγας	τάς σάλπιγγας

- 69 (a) Third declension masculine and feminine nouns ending in -ψ. When a third declension noun ends in -ψ its stem ending is one of the labial sounds represented by the labial consonants -Π or -Β. Again, the DEMOTIC counterpart of the noun, or one of its derivatives, will serve as a clue as to which of these letters it is. Examples:

KATHAREVOUSA	DEMOTIC	<u>STEM ENDING</u>	<u>MEANING</u>
ὁ μύωψ	ὁ μύωπας	-π	nearsighted
ὁ κώνωψ	τό κουνούπι	-π	mosquito

ο Κύκλωψ	ο Κύκλωπας	-π	Cyclop
ο Αἰθίοψ	ο Αἰθίοπας	-π	Ethiopean
ἡ φλέψ	ἡ φλέβα	-β	vein
ο "Αραψ	ο "Αραβας	-β	Arab

καλός	καλύτερος	κάλλιστος -ἄριστος	good
καλή	καλυτέρα	καλλίστη -άριστη	kind
καλόν	καλύτερον	κάλλιστον -άριστον	

χακός	χειρότερος	χείριστος	
χακή	χειροτέρα	χείριστη	bad mean
χακόν	χειρότερον	χείριστον	
πολύς	περισσότερος	πλεῖστος

όλιγος	όλιγώτερος	όλιγιστος-έλαχιστος	a little
όλιγη	όλιγωτέρα	όλιγίστη -έλαχιστη	(quart)
όλιγον	όλιγώτερον	όλιγιστον-έλαχιστον	small (quart)

μικρά	μικροτέρα	μικροτάτη	small
μικρόν	μικρότερον	μικροτάτον	little
ταχύς	ταχύτερος	ταχύτατος-τάχιστος	
ταχεῖα	ταχυτέρα	ταχυτάτη -ταχίστη	fast rapid
ταχύ	ταχύτερον	ταχύτατον-τάχιστον	quick

(b) All the adjectives listed above are declined the regular way. The only irregularly declined adjective (other than the familiar πολύς-πολλή-πολύ) is the adjective μέγας-μεγάλη-μέγα in the masculine and neuter genders which are declined as follows:

Singular

	<u>Masculine</u>	<u>Neuter</u>
Nom.	ο μέγας	τό μέγα
Poss.	τοῦ μεγάλου	τοῦ μεγάλου
Dat.	τῷ μεγάλῳ	τῷ μεγάλῳ
Obj.	τὸν μέγαν	τὸ μέγα
Voc.	μέγα (μεγάλε)	μέγα

* The superlative form έλαχιστος-έλαχιστη-έλαχιστον serves as the superlative degree of both the adjective ολιγος -η, -ον and μικρος, -α, -ον.

Plural

Nom.	οἱ μεγάλοις	τά μεγάλα
Poss.	τῶν μεγάλων	τῶν μεγάλων
Dat.	τοῖς μεγάλοις	τοῖς μεγάλοις
Obj.	τούς μεγάλους	τα μεγάλα
Voc.	μεγάλοι	μεγάλα

(c) The comparative form πλέον (more) is used occasionally before the adjective to form its comparative degree. It is the only way to form the comparative degree of participles. Example:

Σήμερον εἶμαι πλέον κουρασμένος ἢ χθές.
Η κατάστασις σήμερον είναι πλέον σοβαρά.

LESSON 96
GRAMMAR ANALYSIS
ΓΡΑΜΜΑΤΙΚΗ

- 71 (a) Adverbs. There is quite a discrepancy, on the whole, between the words used as adverbs in KATHAREVOUSA and those used in the DEMOTIC. Sometimes entirely different words are used to express the same idea while, at other times, the more archaic form of the adverb used by the DEMOTIC is in use in KATHAREVOUSA. Adverbs are generally classified in several categories according to the function they perform as qualifiers (of verbs, adjectives, clauses, or other adverbs.) They are not declinable words in Greek. They are classified as adverbs of place, time, manner, quantity and of affirmation or negation. In the following paragraphs the KATHAREVOUSA version of the various adverbs is given with the DEMOTIC equivalent -- if different -- immediately following in parenthesis.
- (b) Adverbs of place. These refer to space relations. They are: ἄνω (επάνω), χάτω, έδω, έκει, εντός (μέσα), εκτός (ἔξω), πλησίον (χοντά), μαχράν (μαχριά), ενταῦθα (εδώ), απέναντι, πανταχού (παντόθ), εμπρός (μπροστά), οπίσω (πισώ), εντεῦθεν (από εδώ), εκεῖθεν (από εκεῖ), etc.
- (c) Adverbs of time. They refer to concepts of time as for instance, τότε, νύν (τώρα), χθές, σήμερον (σήμερα), αὔριον (νύν), πέρυσι (πέρσι), εφέτος (φετος), ενιστετέ (χάποτε), ἄλλοτε (πρίν), ουδέποτε (ποτέ), έπειτα, χθές, προχθές, πρώην, τέως (πρώην), ἄρτι (μόλις, τελευταιώς), ανθημέρον (τήν ίδια μέρα), αμεσώς, έτι (αχόμη), κτλ.
- (d) Adverbs of manner. These are very common, indicating the "how" or the manner of doing things. They correspond to the English adverbs in -ly and generally end in -ώς in KATHAREVOUSA and in -α in the DEMOTIC. Several other words are also adverbs of manner, as, for instance: ούτως (έτοι), ἄλλως (άλλιώς), τοιουτορόπιως (έτοι), ώς (σαν), όπως, ορθῶς (σωστά), ακριβῶς, τεχνώς (γρήγορα), πεζῆ (με τα ποδια), δημοσίᾳ (μπροστα ρτόν χοσμο), ελληνιστι (στα ελληνικά), γαλλιστι, εξής, ώς εξής, εύτυχώς δυστυχώς παυψηφεί, κτλ. The adverbs in -ώς listed above do not have a corresponding form in

-α in the DEMOTIC. Most other adverbs of manner do.
Examples:

<u>Katharevousa</u>	<u>Demotic</u>
ἀπίστεύτως	ἀπίστευτα
χαλῶς	χαλά
χανονικῶς	χανονικά
δικαιώς	δίκαια
τιμώς	τίμια
σοβαρῶς	σοβαρά
θερμῶς	θερμά

- (e) Adverbs of quantity. These refer to quantity or bulk. They are: πολύ, ολίγον(λίγο), λίαν(πολύ), τόσο(v), ἄπαξ(μιά φορά), δίς(δύο φορές), πολλάκις(πολλές φορές), etc.
- (f) Adverbs of affirmation or negation. Those are: ναι, μάλιστα, ουχί(οχι), ουδολῶς(καθόλου), τάχα, δῆθεν, ίσως, δε(v), μή(v), σχεδόν, etc.

- 72 (a) Comparative and superlative degrees of adverbs. A few adverbs of place and most adverbs of manner may appear in the comparative and superlative degrees. The adverbs of place involved are:

ἄνω	άνωτέρω	άνωτάτω
κάτω	κατωτέρω	κατωτάτω
πέρα	περαιτέρω	
εγγύς (near)	εγγύτερον	εγγύτατα
ἄπω (far, remote)	απωτερον	

- (b) Adverbs of manner form their comparative and superlative degrees as follows:

Adverbs derived from adjectives in -ος, -α(-η), -ον take the endings -ο(ω)τερον, -ο(ω)τατα.

- 74 (a) Derivatives of the verb ΙΣΤΩ - ΙΣΤΩΜΑΙ (ΙΣΤΑΜΑΙ). This verb forms the basic stem of a great number of derivatives. It should be noted that all its continuous tenses have a stem starting with the consonant cluster στ- (στ-, στηθ-, σταθ-). When a prefix is placed before one of these stems all kinds of interesting things may happen. The rough breathing over the vowel ι of the stem ιστ- or the addition of the augment before the consonant cluster στ- in the past tenses can cause many changes making one and the same verb look very different in its various tenses. Examples:

Present:	κατά	ιστῶ	καθιστῶ
Imperf.:	κατά	ιστῶν	καθίστων
S.Past:	κατά	ἔστησα	κατέστησα
S. Future:	κατά	στήσω	καταστήσω

- (b) The following table shows some of the most important verb and noun derivatives of the verb ΙΣΤΩ - ΙΣΤΩΜΑΙ - ΙΣΤΑΜΑΙ. It should be noted that both variants ΙΣΤΩΜΑΙ or ΙΣΤΑΜΑΙ do not always occur in the same derivative. Occasionally, one variant has one meaning while the other variant has another. Examples: ΣΥΝΙΣΤΩΜΑΙ (to be introduced, to be recommended). ΣΥΝΙΣΤΑΜΑΙ (to consist).
