THE LANGUAGE PACKET

INTRODUCTION

To provide assistance to Peace Corps Volunteers in Pre-Service Training, the Language Staff have developed and compiled materials in your target language. This packet contains the following:

- * Core Competencies
- * Learning (TL) Fast
- * Booklet
- Tape
- * Phrase Book
- * Glossary
- * Workbook
- * Grammar Notes

The **Core Competencies** were prepared based on recommendations from volunteers who participated in an assessment of the language training, including its curriculum, in the mid 80's. They contain gambits or expressions used in accomplishing a certain real life task. To provide for difference in learning pace basic, intermediate, and advanced gambits were included. These core competencies served as the basis for most materials in this packet.

Learning a (TL) Fast includes basic or commonly used expressions for greetings, leave takings, shopping, asking for directions, managing a conversation and introducing one's self. It also contains a list of pronouns, numbers and time words. An accompanying tape is provided to serve as a model in pronunciation for you.

The **Phrase Book** contains phrases and expressions in everyday communication and are presented according to situational topics relevant to the life of a Peace Corps Volunteer. An English translation is provided for each gambit to facilitate comprehension of its meaning. It is more extensive in scope compared with **Learning (TL) Fast**.

The **Glossary** provides a list of 800 or more words taken from the core competencies that would assist you in your social contacts for community entry. It has an appendix which is a catalog of verb roots to help you understand how a verb is inflected for focus, aspect, or mood.

The **Workbook** was developed due to the clamor of PCVs for written exercises. It contains varied written activities for vocabulary and grammar reinforcement. It also contains exercises for different levels of learners.

The Grammar Notes explains grammatical points that will assist you in understanding word and sentence structures of a Philippine language. This, in no way, is incomplete. It consists only of those points vital in your understanding of the gambits or vocabulary. It has an appendix which contains a summary of all grammatical points that were introduced and explained in the notes.

With these materials, we hope to make language learning fun and productive for you.

TAGALOG

WORKBOOK

INTRODUCTION

This workbook has been designed to enable the Peace Corps Trainee to reinforce modules he takes up in formal language sessions in written form. This is in response to the varying learning styles that learners prefer. This will cater especially to the needs of the independent learner which is characteristic of most adult language learners.

Modules covered are on Community Entry Language Preparation (CELP) topics such as Socializing, Language to Manage Conversation, Eating, Shopping, Traveling, and Health. Included in each module is a variety of exercises in the areas of vocabulary, gambits, and grammar. Supplementary worksheets on different grammatical points are included to give the learner a choice to work on an area he feels he needs to study further. Answers to most exercises are provided for the learner to check his own. Activities calling for varies responses will have to be checked by the language instructor.

Some modules include vocabulary not necessarily taken up in language sessions. This was done since training is so short a time for us to teach everything needed at site. It is, therefore, suggested that you avail yourself of resources around you other native speakers at the training site, host families, and printed language materials in getting meaning of words you may not be familiar with. Take up unclear points with your instructor, too.

Lastly, this workbook is based on the theory that students learn to speak the language by listening, speaking, reading and writing, in that order.

Chief Language Coordinator

TAGALOG GRAMMAR NOTES

TOPIC 1 SOCIALIZING

Task 1.1. Meeting people briefly

- a. Linker between the Adjective and the Noun

The greeting: Magandang umaga.
(Good morning.)

Consists of an adjective MAGANDA, the linker -NG AND A NOUN UMAGA. The linker -NG signifies a modification sequence between the Adjective MAGANDA (modifier) and the noun UMAGA (modified).

- b. Subject Personal Pronouns

The greeting: Kumusta po kayo?
(How are you?)

KAYO is a personal pronoun which functions as the subject in the sentence, meaning "you (plural)". KAYO is used even with singular subjects to show respect to an older person, a stranger, or a person in authority.

- c. The Action Not Begun of UM verbs

The greeting: Saan ka pupunta?
(Where are you going?)

PUPUNTA, from the Infinitive Form PUMUNTA, emphasizes the doer of the action and is in the Action Not Begun Aspect, meaning "will go".

- d. Question word SAAN

The greeting: Saan ka pupunta?
(Where are you going?)

SAAN is a question word meaning "where".

- e. Question Particle BA

In the sentence: Kumusta ba ang buhay?
(How's life?)

BA is a question particle that occurs right after the predicate, if the predicate is not followed by one or a series of monosyllabic particles or expressions.

f. Preposition SA

The response: Sa palengke.
(To the market.)

SA is a versatile word in Tagalog. It is used for the English prepositions in, to, from, on, for, through and at.

g. Location Set of Demonstrative Pronouns

The response: Dito lang.
(Just here.)

DITO is a demonstrative pronoun meaning "here". Below are the demonstrative pronouns belonging to the location set.

DITO	"here"	(near the speaker)
DIYAN	"there"	(far from the speaker, near the listener)
DOON	"there"	(far from both the speaker and listener)

e.g. Diyan iang. (Just there.)
Doon lang. (Just there (yonder).)

h. Sequence of One-syllable Particles and Words with More than One Syllable.

In the sentence: Mauna na po ako.
(I'll go ahead sir/ma'am.)

Notice that the particles NA PO come before AKO. This follows the rule that one-syllable particles come before any word with more than one syllable, as in the example:

Tutuloy na po ako.
(I'm going now sir/ma'am.)

However, when there is a one-syllable pronoun (KO) and a one-syllable particle (NA) in the sentence, the pronoun precedes the particle, as in the example.

Maiwanan ko na muna kayo.
(I'll leave you first.)

Task 1.2 Making and responding to informal introductions

a. Parts of a Tagalog Sentence

The parts of a sentence in Tagalog may be arranged as follows:

In the sentence: Ako si Mary.
(I am Mary.)

AKO is the predicate-pronoun and SI MARY is the subject.

One example of a noun phrase used as a predicate is the MAY noun phrase meaning "there is, are, was, were, have and has" in the sentence.

May asawa ka na?
(Do you have a wife/husband?) (literal)
(Are you married?)

f. Negation WALA (non-Existential)

One way of negating sentences in Tagalog is with the use of the negation WALA which may mean "none or nothing" or which may express non-existence", as in the example.

(a) Wala ka pang asawa?
(Don't you have a wife/husband? or Aren't you married yet?)

(b) Wala akong kapatid na babae.
(I don't have [a] sister/sisters.)

g. Action Begun Not Completed of MAG verbs

c. TAGA as a place marker

e.g. Taga-Manila ako.
(I'm from Manila.)

d. Subject Markers for Personal Names

In the sentences: Si Paz ang titser ko.
(Paz is my teacher.)

Sina Jun at Malou ang mga titser ko.

e. Occupational Affix

MAG and MANG are prefixes which when attached to a noun with a reduplicated first syllable, will change the noun into an occupation or profession.

e.g. MANG + isda = manggingisda
(fish) (fisherman)

MAG + saka = magsasaka
(farm) (farmer)

Tutulong ako sa mga mangingisda/magsasaka.

b. EXPRESSIONS

An expression is any rootword, stem or word used in exclamatory sentence.

e.g. Ay komi! (Oh! It's corny!)
Ngee! (Ugh!)

TOPIC 2 Language to Manage Learning

Task 2.1 Identifying language to be used in communication

a. Word Order of Sentences with Negation Words

Example:

Hindi ako marunong mag-Tagalog.
(I don't know how to speak Tagalog.)

With the addition of the negation word HINDI.

Task 2.2 Making requests about manner of speech

a. Request Affix PAKI

Paki-ulit.
(Please repeat.)

PAKI is a prefix which when added to the verb root indicates a request. It is equivalent to the English, PLEASE.

b. Action Begun Completed of IN Verbs

e.g. Ano'ng sinabi mo?
(What did you say?)

SINABI is in the ABC aspect (simple past) with emphasis on the receiver of the action because of the affix IN. It means "was said".

c. KA from the verb WIKA

In the example:

Ano 'ka mo?
(What did you say?)

KA is a shortened form of the verb WINIKA which is the synonym of SINABI "was said" with the former being more formal in usage.

Task 2.3 Eliciting meanings in Target Language

a. Pseudoverb + Infinitive

In the example:

Ano ang ibig sabihin ng _____?
(What does _____ mean?)

When a pseudoverb (e.g. IBIG, GUSTO, etc.) co-occurs with a verb, the verb is in the infinitive form. This rule applies to all pseudoverbs appearing with verbs in a sentence.

b. Action Not Begun of IN/HIN Verbs

e.g.

Paano ko sasabihin ang _____ sa Tagalog?
(How do I say _____ in Tagalog?)

SASABIHIN is in the ANB aspect, with emphasis on the receiver of the action because of the suffix IN/HIN meaning "will be said".

Task 2.4 Ensuring communication is clear

e.g. Di kita maintindihan.
(I can't understand you.)

DI is a shortened form of HINDI, which is a negative word meaning "no" or "not".

b. Double Personal Pronoun KITA

KITA may be considered a double personal pronoun in Tagalog, pertaining to the speaker-actor and the listener-object. It takes the place of KO, a non-subject actor personal pronoun and IKAW, a subject pronoun. Thus,

Di kita maintindihan.
(I can't understand you.)

may be said in another way

Di ko ikaw maintindihan

c. Stative NA HAN affix

In this particular gambit:

Naguguluhan ako.
(I'm confused.)

NAHAN is an affix that states the condition of a person.

d. Abilitative Object Focus

Hindi ko naiintindihan.
(I can't understand.)

TOPIC 3

Task 3.1

FOOD

Finding out about (new) food

a. Subject Demonstrative Pronoun

In the example:

Ano ito?
(What is this?)

ITO is a demonstrative pronoun belonging to the subject set meaning, "this".

b. Location/Directional Set of Demonstrative Pronouns

e.g.

Ano'ng tawag dito?

(What is the term for this? or What do you call this?)

Notice the use of the directional set of demonstrative pronoun DITO. The explanation is provided within the English context "(FOR) THIS" which suggests a directional function.

c. Affixed Form of Adjectives

e.g.

Matamis ito.

(It's sweet.)

MATAMIS means "sweet" (refer to 1.5a)

d. Moderative Form of Adjectives

In the gambit:

Matamis-tamis.

(A little sweet.)

The adjective root TAMIS is reduplicated and this is one way of making the Moderative Form of the adjective in Tagalog. Another method of expressing the Moderative Form is with the use of adverb MEDYO which means "a little".

e.g. Medyo matamis.

(A little sweet.)

e. Non-Subject Demonstrative Pronouns

In the question:

Ano'ng lasa?

(What is the taste of this? or How does this taste?)

NITO is a demonstrative pronoun belonging to the non-subject set, meaning "(of) THIS".

f. Action Begun Not Completed Form of IN/HIN Verbs

The word **NILALAGA** is in the ABNC aspect with emphasis on the object of the action meaning "It's cooked by boiling".

Task 3.2 Finding Out How To Eat New Food

a. Object Focus AN/HAN vs. IN/HIN verbs

In the example:

Balatan mo ang patatas.
(Peel the potato.)

Hiwain mo ang patatas.
(Slice the potato.)

The suffix AN is used with verbs which denote that only the surface or appearance of the initial direct object is affected, while the suffix IN/HIN is typically used with verbs whose initial direct objects are directly affected by the action.

Task 3.3. Offering/Responding to an offer of (new) food

a. Verb Root as Imperative

e.g. Kuha ka.
(Take some./Have some.)

Kain ka.
(Eat some.)

Tagalog imperative may consist of only the root word and an optional YOU, singular or plural.

b. Expressions SIGE

SIGE means okay but is never used to express "fine feelings".

e.g. Tikman mo ito. (Taste this./Try it.)
 Sige. (Okay.)

Task 3.5 Preparing Food

a. Stative NA + Verb root

In the example:

Nauuhaw ako.
(I'm thirsty.)

NA + verb root is a form that does not need an object to complete its meaning. It states the condition/feeling of a person, putting the emphasis on the doer of the action.

e.g. Nagugutom ako.
(I'm hungry.)

Nahihilo ako.
(I feel dizzy.)

NOTE: These particular verbs need an external object to relieve one of the feelings of uneasiness.

TOPIC 4
Task 4.1

SHOPPING
Locating sources of needed items

a. Particles

KAYA, SIGURO and BAKA express uncertainty and are examples of particles.

e.g. Kailan kaya sila darating?
(When (do you think) are they coming?)

Baka Intsik si Yda.
(Maybe Yda is Chinese.)

Siguro pupunta siya dito.
(Maybe she will come here.)

b. Pseudoverbs

In the gambit:

Saan pwedeng bumili ng _____ ?
(Where can I buy _____ ?)

PWEDE is an example of a pseudoverb meaning "car". It can also be written as PUWEDE.

Pseudoverbs DAPAT, PWEDE, KAILANGAN, HUWAG, KILALA, GUSTO, and AYAW may take either subject or non-subject personal pronouns depending on the focus in the sentence.

ALAM may take only the non-subject set of personal pronouns.

c. Locative Affix AN/HAN

In this particular AN/HAN

Subukan mo ang sari-sari store.
(Try the sari-sari store.)

The suffix AN when attached to the verb SUBOK, exhibits a Locative Focus with the noun SARI-SARI.

Task 4.2 Selecting Items

a. Causative Affix PA

In the sentence: Pabili ng tinapay.
Contextual: (I'd like to buy bread, please.)
Literal: (Let me buy some bread.)

The verb PABILI is in the Imperative Causative Form with the Causative affix PA prefixed to the verb root BILI "buy".

Topic 5 Transportation

Task 5.1 Taking Local Transportation

a. Affix MAG

In the example:

Magtaxi ka.
(Take a taxi.)

The prefix MAG when attached to words referring to means of transportation will denote "Take a _____".

b. Infinitive IN Affix

e.g. Pwedeng lakarin mula rito?
(Can I walk from here?)

The infinitive verb LAKARIN containing the suffix IN shows a locative/directional relationship with the noun or object which is the intended direction or destination in the sentence.

c. Verbal Predicates may be expanded by Adverbial Predicates

In the example:

Ano ang mabuting sakyang papuntang Banaue?
(What's the best means of transportation to take in going to Banaue?)

The manner adverb, MABUTI, modifies the verb SAKYAN which is in its noun form.

- d. Noun-forming affix AN

In the question:

Ano ang mabuting sakyang?
(What's the best means of transportation to take?)

SAKYAN is derived from the verb SAKAY which means "ride". The addition of the suffix AN makes it a noun meaning, "means of transportation".

- e. Expression PARA/SA TABI LANG

PARA and SA TABI LANG are used to stop a moving vehicle only. PARA means "stop" and SA TABI LANG means "just at the side (of the road)".

Task 5.2 Taking a Trip

- a. In the example:

Saan ako magbabayad?
(Where will I pay?)

MAGBABAYAD is from the Infinitive Form MAGBAYAD, with emphasis on the doer of the action. It is in the Action Not Begun aspect meaning "will pay".

- b. MGA as an Approximative

Example:

Mga tatlong oras.
(About/Around three hours.)

In a previous lesson, you learned the use of MGA as a plural marker. MGA can also be used to express an approximation of time, amount or measurement.

TOPIC 6 HEALTH
Task 6.1 Getting Medical Help

- a. PAKI prefix plus suffix AN

In the sentence:

Paki-tulungan mo ako.
(Please help me.)

We note that PAKI may be attached to some verb roots to form the Imperative. In the example above, the verb TULUNGAN contains a direction/benefactive - marking suffix AN plus the prefix PAKI and this gives us another rule on the use of PAKI, that, it may be attached to a verb root or a verb containing a direction/benefactive - marking affix (AN/HAN or IN/HIN).

- b. Accidental Affixes

NA and NA + AN are accidental affixes that focus on the actor but an external object causes the discomfort or pain as indicated by the verb root. An exception is the word NAHULOG which does not require a causing object but requires one when the form is NAHULUGAN.

e.g.

Nahiwa ako ng kutsilyo.
(I accidentally cut myself with a knife.)

Nakagat ako ng aso.
(I was accidentally bitten by a dog.)

Nabundol ako ng kotse.
(I was accidentally run over by a car.)

Nahulog ako sa silya.
(I accidentally fell off from the chair.)

Nabuhusan ako ng mainit na tubig.
(Hot coffee was accidentally poured over me.)

Nasagasaan ang bata ng kotse.
(The child was accidentally hit by a car.)

Nahulugan ako ng buko.
(I was accidentally hit by a coconut.)

NAKA is another accidental affix with the actor as the agent causing the change, discomfort or pain.

e.g.

Nakabaril siya ng bata.
(He accidentally shot the child.)

Nakabasag si Malou ng baso.
(Malou accidentally broke the glass.)

Nakasagasa sila ng pusa.
(They accidentally ran over the cat.)

c. MAGPA affix

With the MAGPA affixed verb, the subject of the sentence is the causing agent, while the natural agent may or may not be expressed in the sentence. However, in the example:

Kailangan kong magpaduktor.
(I need to see the doctor.)

The causing agent and the natural agent are one and the same, KO (a non-subject actor pronoun). To further illustrate why, this is another variant of the sentence above:

Kailangang magpaduktor ako.
(I need to see a doctor.)

d. Use of SAAN and NASAAN

There are two "where" questions, agalog, SAAN and NASAAN. While SAAN can be used to ask for location and direction questions, NASAAN may only be used to ask location questions. Thus where NASAAN can be used, SAAN can also be used, but where SAAN as a direction question is used, NASAAN cannot be used.

The correct response to a NASAAN question is a noun phrase that begins with NASA.

e.g.

Nasaan ang ospital.
(Where is the hospital?)

Nasa bayan.
(In town.)

To respond to SAAN is SA + noun phrase

e.g.

Saan ka bibili ng gamot?
(Where will you buy medicine?)

Sa drugstore.
(At the drugstore.)

e. Existential and Non-Existential Words

MAY/MAYROON are existential words meaning, "there is/are/have/
has/was/were.

WALA is a non-existential word meaning, "none/nothing".

II. PSEUDOVERBS

Pseudoverbs are called so because they exhibit characteristics of both verbs and adjectives. Like verbs, pseudoverbs can have case relationships with the nouns in the sentences and can be inflected for aspect (such as completed, continuing, not begun). Like Adjectives, pseudoverbs can be intensified and compared.

1. There are 9 pseudoverbs in Tagalog. They are divided into 3 groups:

- a) Group 1

gusto
nais
ibig
(want, like)

- b) Group 2

ayaw (dislike)	kailangan (need)
-------------------	---------------------

- c. Group 3

maari (may, might)	bawal (it is prohibited)
puede (can, could)	dapat (must, have to, ought to)

2. All 3 groups of pseudoverbs can be intensified in two ways:

- a. by repeating the pseudoverb

e.g. gustong-gusto
(like very much)

puedeng-puede
(can be)

bawal na bawal
(its is strongly prohibited)

NOTE: This method of intensification is not applicable to the pseudoverb dapat.

- b. by adding an intensifying modifier to the pseudoverb

e.g. talagang gusto
(really like)

talagang puede
(really can)

tutuong dapat
(truly ought to)

3. All 3 groups of the pseudoverbs have a comparative form.

e.g. gusto --- mas gusto
(like more than)

Mas gusto ko ang Coke (kaysa) sa Pepsi.
(I prefer Coke to Pepsi.)

Mas kailangan ko ng pahinga kaysa sa pagkain.
(I need rest more than food.)

Mas puede sa akin ang Linggo.
(Sunday is better for me.)

4. All 3 groups of the pseudoverbs have a superlative form.

e.g. gusto --- pinakagusto
(like best)

Pinakagusto ko sa lahat si Jose.
(I like Jose best of all.)

Pinakabawal sa akin ang sigarilyo.
(Cigarettes are what's most forbidden for me.)

5. Group 1 pseudoverbs can take only 2 cases: the agentive and the objective.

e.g. Gusto niya ng mangga.
(He likes mangoes.)

Gusto niya si Jose.
(He likes Jose.)

6. Groups 2 and 3 pseudoverbs can only take the direction and object cases

e.g. Maari na ba sa iyo ang peso?
(Is one peso good enough for you?)

Puede na sa akin ang tubig.
(Water is good enough for me.)

Dapat sa iyo's tubig.
(Water is good for you.)

Bawal sa iyo ang bagoong.
(Bagoong is bad for you.)

7. With pseudoverbs, only the object noun may become the subject of the sentence. In this case, the object becomes a definite item and is equivalent to a stressed word in English.

e.g. Gusto niya ang mangga.
(He likes the mangoes.)

Gusto niya si Jose.
(He likes Jose.)

Bawal iyan sa akin.
(That is bad for me.)

Puede sa iyo ang pula.
(Red is okay on you)

8. Pseudoverbs can be used as auxiliary verbs. In this case, the main verb is in the infinitive form. When the pseudoverb is immediately followed by the main verb, the linker is attached to the pseudoverb (as in examples a, b and c below). Note that the pseudoverbs **ayaw** and **bawal** do not require linkers between themselves and the main verbs (as in examples d and e below). When the pseudoverb is followed by a pronoun, the linker is attached to the pronoun (as in examples f and g below.).

e.g. a) Gustong kumain ng bata ng turon.
(The child wants to eat turon.)

b) Kailangang itanim na rin Pedro ang paminta ngayon.
(Pedro needs to plant the pepper now.)

c) Puedeng tamnan ni Pedro ng paminta ang bakuran niya.
(Pedro can plant pepper in his backyard.)

- d) Ayaw magtanim ni Pedro ng paminta.
(Pedro dislikes to plant pepper.)
 - e) Bawal nagsigarilyo dito.
(It is forbidden to smoke here.)
 - f) Maari mong ibili si Pedro ng abono.
(You may buy some fertilizer for Pedro.)
 - g) Dapat mong samahan si Lisa sa bayan.
(You must go to town with Lisa.)
9. The case relations between the pseudoverb and the nouns in a sentence are indicated by word-order (that is, agentive before objective) if the nouns are both personal nouns.
- e.g. Kailangan ng bata ng ina.
(A child needs a mother.)

NOTE: The doer noun precedes the object noun.

If one of the nouns co-occurring with the pseudoverb is a personal noun and the other is a non-personal noun, then the personal noun is the agent and the non-personal noun is the object.

e.g. Ayaw ng bata ng gulay.
Ayaw ng gulay ng bata.
(The child dislikes vegetables.)

III. PARTICLES are forms that add meaning to a sentence.

NOTE: The difference between YATA and BAKA is that the former is never found at the beginning of a sentence while the latter is always found at the beginning of the sentence.

e.g.

- a) Oo nga, ang daming tao.
(Oh yes, there are too many people.)
- b) Masarap nga ang luto ni Medy.
(Medy's cooking is really good.)

15. O is used either as a sentence opener or closer which means "please", "now", "see" or "okay". At the same time it expresses the idea that a statement is also meant as a command. What softens the statement into a request is NAMAN.

IV. THE CONJUNCTIONS OR CONNECTORS

There are two groups of conjunctions or connectors in Tagalog that may be used in combining two or more basic sentences: the coordinating conjunctions and the subordinating conjunctions.

A. The Coordinating Conjunctions

Tagalog has a number of conjunctions that express varying relations of coordination such as: addition, contrast, choice, and negation.

Below are the Tagalog coordinating conjunctions with the relationship that they express:

1. AT "and" for addition

e.g.

Mainit sa Laguna.
(It is hot in Laguna.)

Maalikabok sa Laguna.
(It is dusty in Laguna.)

Combined Sentence:

Mainit at maalikabok sa Laguna.
(It is hot and dusty in Laguna.)

2. AT SAKA "and also", for addition, showing sequence of events

e.g.

Pumunta siya sa Post Office.
(He went to the Post Office.)

Pumunta siya sa palengke.
(He went to the market.)

Combined Sentence:

Pumunta siya sa Post Office at saka sa palengke.
(He went to the Post Office and also, to the market.)

Hindi niya ako kilala.
(He does not know me.)

Hindi niya ikaw kilala.

(He does not know you.)

Combined Sentence:

Ni ako ni ikaw hindi niya kilala.
(He knows neither you nor me.)

B. The Subordinating Conjunctions

Tagalog has several conjunctions expressing relations of subordination between or among sentences of unequal importance. The important sentence is usually the lead sentence followed by the subordinate sentence introduced by a subordinating conjunction, that expresses its relationship to the important sentence. Below are the Tagalog subordinating conjunctions with the relationship that they express.

1. For reason

KASI	"because"
DAHIL SA	"because of"
SA DAHILANG	"for the reason that"
SAPAGKAT	"because"

Malungkot si Juan.

- b) With Affix: Maganda ang bata. (The child is beautiful.)
Palabiro si Pedro. (Peter is a joker.)

Below are the forms of adjectives:

A. Prefixes

1. MA/MAKA are prefixes which, when added to rootwords, form adjectives which express a positive quality.

- e.g. Mabait si Helen. (Helen is good.)
Makabagong babae siya. (She is a modern woman.)

2. The Comparative Degree has three uses:
- To express equality, we use the prefixes KASING and MAGKASING:
- e.g. Kasingganda ni Elena si Maria.
Magkasingganda sina Maria at Elena.
(Mary is as beautiful as Elena.)
- NOTE: Another way to express equality is by using the words PAREHO and GAYA which means "as" or "like".
- e.g. Maganda si Maria pareho ni Elena.
Maganda si Maria gaya ni Elena.
(Mary is as beautiful as Elena.)
- To express the quality existing in a higher degree, we use the words KAYSA ("than") and LALO or MAS ("more").
- e.g. Mas maganda si Maria kaysa kay Elena.
Lalong maganda si Maria kaysa kay Elena.
(Maria is prettier than Elena.)
- To express a quality existing in a lower or lesser degree, we use the following expression: HINDI KASING NI
- e.g. Hindi kasingganda ni Maria si Elena.
(Maria is not as beautiful as Elena.)
- NOTE: KASING is used only with the root word.
3. The Intensive Degree expresses the quality in a more forceful and emphatic form. There are many ways of expressing this degree, most commonly used are the following:
- by adjective reduplicaiton
- e.g. magandang-maganda (very beautiful)
malinis na malinis (very clean)
malakas na malakas (very strong)
- by attaching the prefix NAPAKA to the root.
- e.g. napakaganda (very beautiful)
napakalinis (very clean)
napakatarnad (very lazy)
4. The superlative degree denotes a quality existing in the highest degree. The prefix PINAKA is used with the positive degree of the adjective more

than the other superlative forms we have.

e.g.	pinakamaganda	(most beautiful)
	pinakamalinis	(cleanest)
	pinakatamad	(laziest)

5. MAKA + rootword means "in favor of" or "supportive of"

NOTE: Rootword is always a noun.

VII NEGATION IN TAGALOG

In Tagalog there are six distinct negation concepts. These negation concepts are all expressed in English by the Negation word NOT and occasionally NEVER or NO. But in Tagalog, certain negation concepts and distinctions within a concept are expressed by different negation words. The six Tagalog negation concepts are as follows:

1. Negation of an EVENT

An EVENT is a process or activity. The negated event may have been begun or not begun.

Begun EVENT Hindi tumakbo ang bata.
(The boy did not run.)

Not Begun EVENT Hindi tatakbo ang bata.
(The boy will not run.)

2. Negation of a STATE

A STATE is neither a process nor an activity. A state is usually expressed by nouns for identification and by adjectives for description.

STATE Hindi doktor ang lalaki.
(The man is not a doctor.)

Hindi siya matangkad.

(He is not tall.)

3. Negation of KNOWLEDGE

KNOWLEDGE here means knowledge of a fact or having the ability or skill to do something.

KNOWLEDGE of a fact

Hindi ko alam ang pangalan mo.
(I do not know your name.)

ABILITY or SKILL

Hindi ako lumalaro.
(I do not swim.)

4. Negation of DESIRE

DESIRE

Hindi ko gusto iyan.
Ayaw ko iyan.
(I do not like that.)

5. Negation of an EXISTENCE

Existence here refers to two concepts: The possession of an item and the presence of an item in a given location.

EXISTENCE - Possession

Wala akong pen.
(I don't have a pen.)

EXISTENCE - Location

Walang pen dito.
(There are no pens anywhere here.)

6. Negation of a COMMAND

COMMAND

Huwag kang pumunta.
(Don't go.)

VIII LINKERS

These are forms used to signify a relationship between a modifier and a modified word. In English, this is not necessary since the modifier and the modified are in a strict word order, as in "big house", not "house big".

In Tagalog, the word order of the modifier and the modified is free.

modifier + modified

OR

modified + modifier

To show that the forms are in a modification relationship (in both orders), linkers are used between the forms.

Adjective + linker + Noun

OR

Noun + linker + Adjective

The linkers are used after the first word as follows:

If the first word in the sentence ends in a vowel, the linker -NG is attached to the word.

e.g. maganda - magandang_babae (beautiful woman)
 lalaki - lalaking_mabait (good/kind man)

If it ends in a consonant, except N, the linker NA occurs following the first word.

e.g. malamig - malamig na beer (cold beer)
 bahay - bahay na malaki (big house)

If it ends in the consonant N, the linker -G is attached to the word.

e.g. hangi. - hanging malamig (cold wind)
 kahon - kahong maliit (small box)

Uses of linkers:

1. attached to question words as part of a modification sequence

ilan = ilang_bote (how many bottles)
alin = aling_tindahan (which store)

2. between a number and an item in a phrase

isang_bola (one ball)
apat_na_kotse (four cars)

3. between a demonstrative pronoun and a noun

ito_ng_libro (this book)
iyang_kanto (that corner)

4. between an adverb and a verb

tinatamad na kumain (lazily ate)
mabilis na umalis (quickly left)

5. between a pseudoverb and a verb

Pwedeng magsulat dito? (Can I write here?)
Gustong umuwi ni Belle. (Belle wants to go home.)

6. with time expressions

sa darating na linggo (this coming week)
noong isang linggo (last week)

7. with modifying phrases

Nandito si Ana na kaibigan ko.
(Ana, who is my friend, is here.)

Nag-aaral pa si Pedro na anak ni Mr. Santos.
(Pedro, (who is) the son of Mr. Santos, is still studying.)
